PART I
GENERAL.

Proceedings of the Government of Mysore,

READ :—

Letter No. 880—816, dated the 27th April 1897, from the Deputy Commissioner of Chitaldrug, submitting for sanction a bill for Re. 0-10-4, being the cost incurred by the Amildar of Davangere in feeding an immigrant from Pandrapur in the Bombay Presidency, who was returning by rail from Tarikere, where he had gone with his wife and children in search of labor, and who having reached Davangere in a very bad state of health died there after a few days' treatment, and requesting that an advance of Rs. 50 be placed at the disposal of the Amildar of Davangere to meet such unforeseen expenses.

No. 71—D, DATED, BANGALORE, 6TH MAY 1897.

ORDER THEREON.—The bill for (Re. 0-10-4) annas ten and pies four only is sanctioned and forwarded to the Comptroller for audit, the charge being met from the sum of Rs. 50, which the Comptroller will at once place at the disposal of the Amildar of Davangere for expenditure on gratuitous relief, to be accounted for by him in due course.

C. SREENIVASIENGAR, *Secy. to Govt., Gen. & Rev. Depts.*

To— The Deputy Commissioner, Chitaldrug District.
The Comptroller to the Mysore Government with bill.

READ :—

Letter No. 3297—252, dated 11th March 1897, from the Conservator of Forests in Mysore forwarding a copy of his Note on the felling of Kamara trees in the kaval between Bommagondanakere and Hangal in the Molakalmuru taluk, Chitaldrug district, and requesting a special allotment of Rs. 3,200 for the purpose as a temporary relief measure.

No. 72—D, DATED, BANGALORE, 6TH MAY 1897.

ORDER THEREON.—The Conservator of Forests proposes, as a temporary relief measure, to take in hand about 200 acres of the above kaval and after reserving a few of the best mature Kamara trees, 10 to 15 per acre, as "seeders," to have the rest felled close to the ground; the people being allowed, without payment, to remove the top and lop as firewood and the leaves as fodder, and the trunks and large branches being split and disposed of to the best advantage. With complete protection after the felling, a good growth of grass, with the early rains, is anticipated, besides possible re growth from seed or coppice; and if the operations prove tolerably successful they may, it is suggested, be gradually extended, year by year, to the whole kaval, and portions thereof closed in rotation for the improvement of the fuel and fodder supply.

2. The Government approve of these proposals, and direct that a sum of Rs. 3,200 be placed at the disposal of the Conservator for the purpose from Provincial Funds under the head "Relief."

C. SREENIVASIENGAR, *Secy. to Govt, Gen. & Rev. Depts.*

To—The Conservator of Forests in Mysore.
The Comptroller to the Mysore Government.

No. 73—D, DATED, CAMP OOTACAMUND, 7TH MAY 1897.

READ :—

Docket No. 962, dated 22nd April 1897, from the Deputy Commissioner, Hassan district submitting, with reference to this office No. 68—D, dated 5th idem, a report from the Amildar of the Arsikere taluk, in which it is explained that owing to the non-receipt of a sufficient supply of ragi at the weekly fair at Arsikere on the 26th March last, and the large demand for the same, the price rose from 32 to 22 seers per rupee during the week ending 27th idem

No. 74—D, DATED, BANGALORE, 10TH MAY 1897.

ORDER THEREON.—Government observe that the rise in the price of ragi at Arsikere during the week ending 27th March 1897 has been very closely maintained in subsequent weeks, and has not been satisfactorily explained. The Deputy Commissioner should carefully watch the principal markets in his district and satisfy himself that they are properly supplied with food grains, reporting to Government any apprehended reduction or failure of supply.

Letter No. 932 of the 8th May 1897 from the Deputy Commissioner, Tumkur district.

With reference to your docket No. 11834—Mis, 2295, dated 29th April 1897, calling for a special report upon the out-break of cholera at Kadaba and the sanitary measures adopted to arrest its spread, I have the honor to state that the disease was not of local origin but was imported into the village by some pilgrims who returned from Melkote of the Seringapatam taluk where it was prevailing.

2. The 1st case occurred on the 1st of April, when a Srivaishnava woman, by name Lakshmidevamma, was attacked soon after her return from Melkote. She succumbed to the disease the next day, but as no more cases followed immediately, the case was believed to be one of diarrhœa. The second case occurred on the 10th, which ended fatally. The disease assumed an epidemic form on the 13th idem when six attacks took place. The police at once sent for the Hospital Assistant of Gubbi, who attended on the patients. As soon as the report reached this office, a Special Hospital Assistant was at once deputed to the village with a stock of medicines. Orders were at the same time issued to the Amildar to take measures to prevent the spread of the disease.

3. The Amildar and the Inspector of Police went to the spot to make the necessary sanitary arrangements. The town was cleansed, and sulphur and tar were freely burnt. Disinfectants also were freely used. Arrangements were also made by the excavation of fresh wells in the bed of the village tank for the supply of an uncontaminated supply of drinking water to the villagers.

4. The disease, however, did not abate. On the 19th of April, the Assistant Surgeon and the Police Superintendent paid a visit to the place. The Assistant Surgeon treated some wells with lime and permanganate of potash.

5. The Assistant Surgeon visited the place again on the 30th April.

6. The disease finally subsided on the 2nd May, no cases being reported since that date.

7. The total number of attacks reported was 129, and the total number of deaths 70, out of a population of 1,467. All the classes that inhabit the village suffered more or less, but the mortality was greatest amongst the Madigars.

8. This report was delayed owing to my absence from head-quarters.

No. 12726 - Mis. 2472, DATED, BANGALORE, 27TH MAY 1897.

ORDER THEREON.—Recorded.

No. 12051-9—L. F. 316-96, DATED, BANGALORE, 5TH MAY 1897.

ORDER THEREON.—In his letter No. 212, dated 26th August 1896, the Deputy Commissioner of Bangalore requested that the imprest of Rs. 50 now held by the Vice-President of the Closepet Municipality be raised to Rs. 100, and that Deputy Commissioners be authorized to raise or lower the Amildars' imprests according to the requirements of each taluk and month up to a limit of Rs. 300. The Comptroller who was consulted on the point had no objection to the proposals being sanctioned, in which case he was of opinion that the provision made for special imprests in Rule 9 of his Local Fund Circular No. 2, dated 30th July 1894, should be removed.

(2) Thereupon the Deputy Commissioners of Districts were requested to state whether the scale of imprests sanctioned in Proceedings No. 18727-37—L. F. 442-92, dated 4th May 1894, was sufficient or required revision, and, if so, to what extent.

(3) Having given the replies received and the whole question of imprests their best consideration, Government are of opinion that the present imprests are in many municipalities insufficient, and should be raised. Certain new municipalities, which at present possess no imprests, require reasonable amounts being placed at their disposal on this account. The existing imprests and those now sanctioned are accordingly shown in the accompanying statement:—

ORDER THEREON.—The information received from the districts is neither complete nor accurate. The Deputy Commissioners of the several districts are therefore requested to submit as early as possible a statement in the accompanying form showing the local cess realized in each municipality for the past official year on items pertaining to Provincial Revenue.

2. The following procedure should be observed in the preparation of the statement now called for :—

(1) The land cess collected within the survey boundaries of villages included in a municipal town must be shown in the statement as the cess collections in the municipality.

(2) The statement must be made to show the sayer cess collections actually realized in a municipality irrespective of the place of consumption of arecanut.

(3) As regards *abkari revenue which is leased out on contract by circles and not by municipalities, the Amildars should be specially written to to obtain statistics showing consumption in shops of each municipal town and calculate local cess in the following manner in cases where actual realizations cannot be given :—

*1. Arrack.
2. Ganja.
3. Toddy.

Total consumption of a circle : consumption in a municipal town : : total cess of a circle : cess in the municipality.

Letter No. 524, dated 5th May 1897, from the President of the Mysore City Municipality.

I have the honor to state that the Government in their order No. 18727-37—L. F. 44229, dated 4th May 1894, sanctioned the amounts of imprests to be held by each Vice-President of the District Municipalities of the province, but no amount was fixed for the Mysore City Municipality, and that, however, a sum of Rs. 100 was held by the Vice-President from July 1892, though the then President Mr. A. Rangaswamaiengar permitted him to have Rs. 300

As the Comptroller has instructed that the items not finally settled may be paid out of imprest instead of showing them as advance and owing to the urgency of purchasing arecanut trees and other materials for the marriage of the 1st Princess, the imprest was raised to Rs. 290 and payments made.

The Comptroller has taken objection and wants to obtain the order of Government for increasing the imprest. This city being the seat of His Highness the Maharaja, on many an occasion extraordinary expenses are incurred without obtaining sanction for want of time,

I request, therefore, that you will be good enough to obtain the sanction of Government to increase the imprest to Rs. 500.

No. 12591-2—L. F. 316-96, DATED, BANGALORE, 22ND MAY 1897.

ORDER THEREON.—An imprest of Rs. 500, inclusive of the Rs. 100, sanctioned in Government Proceedings No. 12414-16—L. F. 316-96, dated 17th May 1897, will be allowed to the President of the Mysore City Municipality.

Letter No. 868, dated 22nd April 1897, from the Deputy Commissioner, Tumkur district, soliciting sanction for a further allotment of Rs 30,000 for advances to be made for irrigation wells in the district during the remaining period of 1896-97.

No. 9621-22—R. F. 2-96, DATED, BANGALORE, 1ST MAY 1897.

ORDER THEREON.—A sum of Rs 50,000 was allotted to the Tumkur district in Government Proceedings Nos. 1535-43—R. F. 2-96, dated 10th August 1896, and 1538-39—R. F. 2-96, dated 20th November 1896, for advances to be made for irrigation wells during the year 1896-97. Of this amount a sum of Rs. 43,510 is reported to have been already advanced for the construction of 152 wells, leaving a balance of Rs. 6,490. This amount being reported to be insufficient to meet the demands still pending in the Sira, Pavagada and Maddagiri taluks, a further allotment of Rs. 20,000 is hereby sanctioned. The total sum allotted to the district for the year 1896-97 will thus amount to Rs. 70,000. Considering that owing to the special circumstances of the season, very large allotments have been sanctioned for the current year, Government are of opinion that adequate arrangements should be made for the satisfactory investigation of applications and for the proper utilization of loans by the raiyats concerned. The Deputy Commissioner is requested to employ one of his Assistant Commissioners chiefly on this work, and to see that the loans so readily advanced by Government are neither misspent nor tardily spent.

2. Government would be prepared to consider proposals, if any, from the Deputy Commissioners, regarding the location of Assistant Commissioners in charge of taluks, in some convenient and central place within their own jurisdiction instead of at district head-quarters as heretofore.

3. One of the Assistant Commissioners of the Chitaldrug district has recently been located at Davangere and is in charge of the Davangere and Jagalur taluks. What taluks have been assigned or will be assigned to the other Assistant Commissioners should be reported.

4. It is observed that in the Tumkur district no territorial charges have been assigned to the Assistant Commissioners. The Deputy Commissioner is requested to report as early as possible what taluks he proposes to assign to his Assistant Commissioners. The question of giving every Assistant Commissioner an adequate establishment is nearing settlement and need not deter the submission of the above proposal

* This includes a sum of Rs. 7,941 which is the amount of remission granted in all the districts.

2. There is a large decrease of Rs. 53,639 for the whole province under total demand. The decrease is general in all the districts except Kolar and Tumkur. In the Bangalore, Mysore and Shimoga districts there is a decrease under current demand as shown in the margin, which the Deputy Commissioners concerned are requested to explain at an early date. The decrease in the Mysore, Hassan, Kadur and Chitaldrug districts is mainly due to the arrears at the beginning of the current year 1896-97 being less than those at the commencement of the previous year.

District.	1895-96.	1896-97.	Decrease.
	Rs.	Rs.	Rs.

Mysore ...	3,05,757	3,03,972	1,785
Shimoga ...	1,18,687	1,17,659	1,028

3. The proportion which the outstanding balance bears to the entire demand is shown below:—

Districts.	1895-96.	1896-97.	*Districts.*	1895-96.	1896-97.

Chitaldrug ...	5·8	5·7	Kadur ...	·6	·8
Hassan ...	5·8	5·1	Shimoga ...	·5	·6

The above figures show that the collection work in the Mysore and Bangalore districts have not been quite satisfactory.

4. Out of the total balance of Rs. 90,758, Rs. 87,261 relate to the arrears under the head " Toddy," Rs. 1,019 under " Arrack," Rs. 500 under " Ganja" and the rest under " Miscellaneous items."

5. The arrears on account of previous year's demand as they stood on the 1st July 1896 and 31st December 1896, are as shown below :—

In the Hassan district, the arrears relate to so far back as the year 1883-84 and in Mysore to 1885-86. No steps appear to have been taken for the collection of such long standing arrears. The Excise Commissioner is, therefore, requested to adopt suitable measures for the adjustment of these arrears before the close of the present collection season.

2. In the Tumkur district, there were ten darkhasts pending disposal at the end of the quarter ended 30th September 1896, whereas in the statement submitted for the quarter ending 31st December 1896, only nine darkhasts are shown as pending disposal at the beginning of the quarter. The Deputy Commissioner will explain the discrepancy.

3. In the Mysore district there were 222 applications pending disposal at the end of the quarter ended 30th September 1896, while in the statement now submitted, the number pending disposal at the beginning of the quarter under review is shown to be 227. This requires explanation.

4. The number of applications pending further disposal in the districts of Kolar, Mysore, Hassan and Shimoga is large and requires the early attention of the Deputy Commissioners.

5. As regards the request made by the Deputy Commissioner of Mysore *in re* the supply of three additional Measurers from the Survey Department, the Deputy Commissioner's attention is invited to para 3 of Government Proceedings No. 8143-50—R. 2733, dated 21st March 1897.

C. SREENIVASIENGAR,

To—The Deputy Commissioners of Districts.

READ:—

Correspondence ending with Memo, dated 25th April 1897, from the Deputy Commissioner of the Kolar district *in re* the re-constitution of the late Srinivaspur taluk.

No. 9899-931—R. F. 91-95, DATED, BANGALORE, 4TH MAY 1897.

ORDER THEREON.—The question of re-constituting the late Srinivaspur taluk has, for some time past, been engaging the attention of Government. Having given the matter their most careful consideration, Government are of opinion that this measure is one of great importance and pressing necessity and should no longer be deferred. Government are accordingly pleased to sanction the re-constitution, with effect from the 1st July 1897, of the taluk of Srinivaspur comprising the present sub-taluk of Srinivaspur consisting of the marginally named four hoblis of 224 villages with the following additions:—

*1 Srinivaspur Kasba	... 63
2 Somayajalpalli	... 66
3 Nelavanki	... 55
4 Rayalpad	... 40
	224

To be transferred from—	Name of hobli.	No. of villages in each hobli.

	From Dalasanur ...	23
	From Sugatur hobli ...	1
	From Holar	1 — 25
Total ...	3 Hoblis ...	105 villages.

Thus, the new taluk will consist of seven hoblis of 329 villages as shown below:—

1	Kasaba Srinivaspur	containing	...	...	63 villages.
2	Somayajalpalli	do	...	...	66 do
3	Nelavanki	do	...	...	55 do
4	Rayalpad	do	...	...	40 do
5	Addagal	do	...	...	52 do
6	Yeldur	do	...	...	28 do
7	Dalasanur	do	..	...	25 do
					329

2. In all interests, it seems desirable that the Kaiwara hobli of the Sidlaghatta taluk should be transferred to the Chintamani taluk, from which the Addagal hobli has now been taken away and added on to Srinivaspur. This transfer is ordered accordingly with effect from the same date as that mentioned above.

3. Pending the contemplated re-arrangement of shekdari charges, the 30 villages remaining after the transfer of 26 villages from the Yeldur hobli will,

as proposed, form a separate hobli in the Mulbagal taluk to be called theUtnur hobli with head-quarters at Utnur.

4. A portion of the Dalasanur hobli having been transferred to Srinivaspur, there remain 22 villages which will, as proposed, be distributed among the Sugatur, Kolar and Holur hoblis of the Kolar taluk, as shown in the margin, the shekdar and the peons attached to the present Dalasanur hobli being transferred to the hobli of the same name now constituted in the Srinivaspur taluk.

„ 8 Assessed taxes, salt pans, &c.
„ 9 Miscellaneous collections.

No. 9964-72—R. 3256, DATED, BANGALORE, 7TH MAY 1897.

ORDER THEREON.—Subjoined is a statement prepared in this office showing the demand, collection and balance under the heads "Land revenue," "Sayer," "Salt", "Mohatarfa," and "Miscellaneous collections," for the seven months under review as compared with the figures for the corresponding period of last year.

2. *Land Revenue.*—The decrease under current demand in the Kolar, Tumkur, Hassan, Shimoga and Kadur districts, as shown below, requires explanation, which the Deputy Commissioners are requested to furnish at an early date:—

	Kolar.	Tumkur.	Hassan.	Shimoga.	Kadur.
	Rs.	Rs.	Rs.	Rs.	Rs.
1895-96	29,548	15,617	1,14,854	1,27,714	2,26,857

Decrease ...	17,677	9,458	8,437	12,015	52,169

3. How much of the entire demand was left unrealized is shown below:—

Districts.	1895-96. Per cent.	1896-97. Per cent.
Kolar	41·1	54·2
Hassan	34·6	52·3
Shimoga	33·7	46·9
Bangalore	41·1	46·2
Kadur	37·9	46·2
Mysore	28·3	37·8
Tumkur	3·6	30·5
Chitaldrug	13·0	3·6

4. The collections as shown by the Deputy Commissioners differ from the Comptroller's figures to the following extent:—

Districts.	As shown by the Deputy Commissioners.	As shown by the Comptroller.	Difference.
	Rs.	Rs.	
Kolar	22,390	22,313	+77
Mysore	1,23,937	1,24,140	—203
Shimoga	1,77,206	1,77,292	—86
Chitaldrug	11,025	10,994	+31

These differences should be adjusted early in communication with the Comptroller.

5. The salwar details of balance given in Statement A attached, show that the arrears due in the Kolar and Hassan districts date as far back as from 1876-77, and those in Mysore and Shimoga from 1881-82. Government do not quite understand why these old arrears should thus continue to be shown in the accounts. If they are realizable, steps should at once be taken to collect them. If irrecoverable, they should be recommended for remission. It is noted that the details of balance called for in Government Proceedings No. 1167-74—R. 413, dated 25th July 1895, have not been furnished by the Deputy Commissioners of Kolar and Mysore. This should always be done.

6. The heavy balance of Rs. 14,135 outstanding in the Shimoga district under the head "Miscellaneous" is reported to be chiefly owing to the interest due on the arrears of Honnali Gold Mining Company, for the payment of which the Government in their Proceedings No. 290-91—D. C., dated 11th May 1896, have granted time till the end of February 1897. The Deputy Commissioner, Mysore district, has not explained the circumstances under which such a heavy balance as Rs. 11,400 was allowed to be outstanding in spite of the observations made in Government Proceedings No. 6027-35—R. 2049, dated 5th January 1897. He is now requested to explain the cause of this heavy balance. The other items call for no remarks.

Correspondence ending with letter No. 951, dated 17th March 1897, from the Deputy Commissioner, Bangalore district, regarding the refund of the deposit money of Rs. 229 paid by one Boranna on account of the right of collecting Kuranga stones in the Dodballapur taluk for 1895-96.

No. 9985-93—Fl. 904, DATED, BANGALORE, 10TH MAY 1897.

ORDER THEREON.—The sale referred to was held on the 11th September 1895, and Boranna's bid for Rs. 916 was the highest. He did not pay immediately after the sale the prescribed deposit of ¼th of the purchase money, and the Taluk Sheristedar, who was then in charge of the taluk and who conducted the sale, allowed him time till 8 P. M. that day, to pay the said amount. Boranna did not, however, bring the money within the appointed time, and the Sheristedar therefore made a remark to that effect in the sale list and went home. But there is a receipt granted by the Head Gumasta to show that the money was paid by Boranna on the date of the sale itself, but after the close of the Treasury. The Head Gumasta explains that, as previously authorized by the Sheristedar, he received the money brought by Boranna at about 8-30 P. M., and gave him a receipt therefor, and informed the Sheristedar of this at 10 A. M., on the following day, *viz.*, 12th September 1895. This statement seems opposed to probability as judged by the Sheristedar's subsequent conduct, and is denied by the Sheristedar who alleges that the Head Gumasta told him that the money was received on the 12th morning. The Sheristedar made a remark to the above effect in the sale list, and also submitted a report to the First General Assistant Commissioner on the 18th September 1895, with two petitions received from Kalappa and Gurusidappa, one praying for the cancellation of the sale owing to the failure of Boranna to pay the deposit money at the prescribed time, and the other offering Rs. 50 more than Boranna's bid (Rs. 916). In observing that the above report was received on the 12th October 1895, *i. e.*, after a month's delay, the Assistant Commissioner issued an order on the 16th October 1895 directing a re-sale of the right on the ground that Boranna failed to pay the deposit money in time. The re-sale was accordingly held on the 9th December 1895, but one of the petitioners, Kalappa, asked for the adjournment of the sale to 11th December and the other petitioner Gurusidappa was absent, while Boranna gave an indefinite reply. The sale was therefore adjourned to the 10th and Gurusidappa not being present even on that day, it was again adjourned to the 11th in expectation of Kalappa turning up. On the date last mentioned there were no bidders; consequently, on the 14th December 1895, the Amildar recommended the acceptance of the highest bid (Rs. 916) of Boranna at the first sale and the confirmation of the sale in his favor. The sale was accordingly confirmed by the Assistant Commissioner on the 23rd December 1895.

2. A notice, dated 6th January 1896, was sent to Boranna communicating the above order and informing him that he should pay up the balance of purchase money within seven days from the date of receipt of the notice, and work the farm, and that otherwise the deposit money would be forfeited to Government. Thereupon, *i. e.*, on 30th January 1896, Boranna preferred an appeal to the Deputy Commissioner requesting that he might be allowed 12 months' time to work the farm from the date of its being made over to him, or that the deposit amount might be returned to him. In reply, the Deputy Commissioner informed him by an endorsement, dated 31st March 1896, that there were no grounds for any interference with the Assistant Commissioner's order. Again on the 4th May 1896, Boranna petitioned the Deputy Commissioner to the effect that he could not work the farm as he had only two months before him. He was again informed by an endorsement, dated 20th July 1896, that if he had only complied with the notice of 1st January 1896, he would have had ample time to work the farm and that the fault being his own, the deposit amount could not be re-paid. Thereupon, *i. e.*, on 3rd September 1896, Boranna applied to the Deputy Commissioner through an Advocate for a re-consideration of his order.

3. With reference to this petition, the Deputy Commissioner states that there is some force in the contention of Boranna that the 2nd sale virtually cancelled the first one, and that the Assistant Commissioner having confirmed the farm to Boranna *suo motu*, the latter was not bound to abide by it. He accordingly

recommends that as Boranna did not at all work the farm, the deposit of Rs. 229 be refunded to him.

4. Considering the circumstances of the case, Government observe that Boranna was not bound by his bid and is entitled to the refund claimed, which is sanctioned with the following remarks.

5. The sale of the right for 1895-96 ought to have taken place before the close of the year preceding that to which it relates. In the absence of such ordinary precautions unsatisfactory results are sure to happen. Both the District and Taluk Officers are in the present case responsible for not issuing the sale proclamation in time.

6. As regards the receipt of the deposit money, Government observe that it is immaterial whether it was received late at night on the day of the sale or on the next morning. Since it was not paid immediately after the sale, the Sheristedar ought to have re-sold the right according to one of the conditions mentioned in the sale notice.

7. As regards the delay noticed by the Assistant Commissioner in the receipt of the Sheristedar's report of the 18th September 1895, it should have been explained how it occurred and who is responsible for it. The Deputy Commissioner ought to have ascertained the cause of this delay and taken suitable notice of the conduct of the official at fault. His omission to do so is not conducive to the maintenance of official punctuality in such important matters. The Deputy Commissioner will now enquire into this point and submit a report for the further orders of Government.

8. The postponement of the sale in the vague expectation of bidders turning up was quite uncalled for and indicates the indecision with which the Sheristedar acted throughout the whole transaction, and he was apparently unequal to the work he was entrusted with. Amildar Srinivasa Rao ought to have undertaken this important duty himself. The tendency of superior officers to delegate their important duties to their subordinate officials ought to be checked and corrected.

9. The request made by Boranna to allow him 12 months' time to work the farm, or to have the deposit money returned to him, was reasonable, and yet it was refused. He all along protested against the order imposing the liability on him and yet it is surprising that the Deputy Commissioner, while rejecting the objection of the petitioner once in March and again in July 1896, did not consider the 3rd condition in the sale proclamation, *viz.*, that the collection of the stone was to continue from 1st July to the end of June, *i.e.*, for the whole official year. It is noteworthy that the vague demand for the balance of the purchase money was continued till the petitioner actually represented his case to the Deputy Commissioner through an Advocate in the month of September, by which time the year in question had expired. It was with reference to this last petition that the Deputy Commissioner enquired whether the farm was worked by the petitioner, and whether this item of revenue had been included in the annual demand account of the taluk for 1895-96. Government observe that the petitions presented by Boranna himself did not secure the same amount of enquiry and consideration as the petition filed by him through an Advocate.

10. It is also a very unsatisfactory feature in the case that although the demand had been finally decided against Boranna twice by the Deputy Commissioner, the taluk officials did not include the amount thereof in the jamabandi accounts of the year 1895-96. On the whole, the correspondence shows great laxity and want of method and attention in the disposal of such important matters, and the Deputy Commissioner should, therefore, direct his attention to the removal of irregularities of the kind, which, in the present case, caused to Government a loss of Rs. 916.

The following letters from the Deputy Commissioners of the Kadur, Shimoga and Hassan districts, respectively, in reply to Government Order No. 3891-3—72, dated 2nd July 1891 :—

I. Letter No. 216, *dated* 23*rd July* 1891.

With reference to Government Proceedings No. 3891-3—72, dated 2nd instant, I have the honor to state that the practice in granting sites for building purposes in the malnad out of unassessed lands unfit for any cultivation, is to sell the sites by auction for what they will fetch, no assessment of any kind being fixed on them.

2. The correspondence which was submitted to you with this office No. 588, dated 15th March 1887, will explain the manner in which land is often taken up for building purposes without permission, and the remedy which Mr. Meiklejohn with Colonel Grant's approval proposed to apply.

3. My recommendation also is that Government unassessed land, not being forest fit for coffee, may be given free on application without auction or assessment up to a limit of ten guntas for house and hittal.

4. If a larger area is applied for, it is generally for the purpose of increasing the size of the hittal and of growing coffee thereon. In such cases an assessment of one rupee an acre for the whole holding should be charged up to a limit of five acres.

5. This would be a great encouragement to settlers in the malnad, and, as remarked by Mr. Meiklejohn, portions of lands, otherwise valueless, would be brought under coffee cultivation, for, being in the vicinity of houses, the land could be so treated as to yield paying crops of coffee.

6. I need hardly say that Rs. 10 per acre as an upset price is never charged, except for forest land fit for coffee, under the Coffee Rules.

7. There are separate and distinct rules also for the disposal of applications for lands for purposes connected with coffee cultivation.

8. These applications always come from persons already in possession of coffee estates.

II. Letter No. 446—420, *dated* 5*th September* 1891.

In reply to Government Proceedings No. 3891-3—72, dated 2nd July last, has the honor to submit a Memo regarding the grant of free sites for building purposes in the malnad, as requested therein.

SHIMOGA DISTRICT.

Memo regarding the grant of free sites in the malnad for building purposes from reports received from the Amildars as per Government Proceedings No. 3891-3—72, ed 2nd July 1891, Subject No. 121 of the Proceedings Book of the Mysore Dasara presentative Assembly for 1890.

Whenever such applications are received, lands are granted free under orders from the Deputy Commissioner, should there be no objection to the grant. The lands are then measured and given. Raiyats are not subjected to any inconvenience by the procedure which may be continued to be followed.	The chief point is neither to sell a house site in malnad, nor the trees standing thereon, for the sake of money, but to provide a building site in a kharab land to a raiyat, who is actually in want of it The levy of a fair price for the land or the trees standing thereon or for both, are only the secondary considerations.

ence to the upset price of land fit for coffee and it is seldom that this land is sought for building houses on. A very early reply is requested.	should there be no valid objection, the land is granted free if there are no trees in it; otherwise the "Malki" (trees) is sold by auction and the sale list is submitted for the orders of the Deputy Commissioner. If the Deputy Commissioner confirms the sale, the land applied for is granted to the applicant. No inconvenience is experienced by the raiyats by this procedure. NAGAR AMILDAR. If raiyats apply for kharab or unassessed land for building sites, necessary enquiry is made through the Shekdar as regards the standing trees thereon, and if there is any objection to the grant of the land applied for and if there are any trees, the malki is sold by auction and the land granted after obtaining necessary sanction from the Deputy Commissioner, and if there are no trees, the land is granted free to the applicant. This though a malnad taluk has not much land fit for coffee cultivation, and such lands were not applied for building purposes and Rs. 10 recovered per acre as its price, nor an assessment of one rupee per acre was imposed. In the malnad, raiyats must necessarily shift houses to new sites. Raiyats taking up lands newly will be obliged to build houses on Government unassessed lands contiguous to such lands, when they apply for permission, a report is made to the district and as replies arrive with some delay, the raiyats are put to much inconvenience which may be obviated as follows:— The raiyats should be free to build houses, on unassessed Government land, contiguous to his land, provided that by doing so, if he does not cause inconvenience either to cattle or raiyats. All lands on which houses may be built should be entered in a list and levy as its price one rupee per acre and a stipulation entered not to grow coffee therein, on pain of being charged with an assessment of a rupee per acre, should the condition be broken. The list should show the trees, &c., which may be on the land with their estimated value, which should be recovered from the applicant and that the land thus utilized should not exceed two acres in extent. SORAB AMILDAR. When applications are received for unoccupied building sites, enquiry is made	ally in need of it, free of a charge, selling by public auction being resorted to when two or more raiyats in need should apply for the same piece. 3. A fair value, as may be decided on by the Amildar with the aid of the local panchayet, may be levied for a piece, where it has an appreciable market value, resort being had to the public auction when two applicants in need apply for the same piece. 4. The trees standing on the land except sandal may be given for a fair value, decided as above, to the applicant if he agrees to pay it. Should he decline to pay the value, the trees may be sold by public auction, to be removed by the purchaser in a reasonable time. 5. No raiyats should be allowed to build without obtaining the land as above. 6. Generally speaking there is little or no competition for house sites in malnad and an applicant in need obtains the land he wants. 7. Even if what has been submitted in para 3 is approved of, there is no fear whatever that any person actually requiring a piece to build his house thereon, will be put to any hardship in respect of the value to be paid for the site. It is but fair that where a land has an appreciable market value, the Government should have it.

	through the villagers and on a reference to Khaneshumari accounts of past years, as to whether the site applied for belongs to Government or to private persons. Then a notice is issued in the first instance, calling for persons to prove their claims, if any. If the site is not claimed by any one within the time specified in the notice and if it is certified that it belongs to Government, then the site is put up to auction after issuing a sale notification and when the sale is confirmed by the Deputy Commissioner, the site is made over to the purchaser. The site is not granted to the applicant without formally selling it by public auction, even when there is only one applicant; nor will it be granted for any fixed price. The raiyats are not required to pay at Rs. 10 per acre for lands applied for by them for building purposes. The present practice is convenient and may be allowed to stand. If any one builds house on the building site without permission, this fact is brought to the notice of the Deputy Commissioner, who then orders at his discretion to make over the land to him on recovering its local value. This is the only instance in which sites are granted recovering its value. OPINION OF MR. CHELVIENGAR, ASSISTANT COMMISSIONER. With regard to the shifting of the whole village from one site to another, the course to be followed is laid down in the orders that have been received from time to time and the present respects only the individual cases of raiyats requiring to change sites in the malnads where from damp or other cause the step is rendered necessary. Owing to the paucity of raiyats large extents are lying uncared for, and some indulgence is called for. Imposition of assessment and levy of price, small though it may be, cannot but work hardship in the case of the poor malnad raiyats. I think therefore that the Amildars may be authorized to grant such lands, free for building purposes only, the right of Government to standing trees and other things being sold by public auction and reported for confirmation by the higher authorities, if the amount realized happened to be more than Rs. 50.	

III. Letter No. 413, *dated* 17*th September* 1891.

With reference to Government Proceedings No. 3891-3—72 of the 2nd July last, regarding the grant of free sites for building purposes in the malnad, I have the honor to report that so

far as this district is concerned the representation appears to be a mistake. The rate of Rs. 10 per acre has certainly reference to the upset price of land fit for coffee cultivation. In the case of kharab lands unfit for coffee cultivation but adjoining a coffee estate when applied for, for drying grounds, stone buildings, cooly lines and bangalos by holder of the estate, they appear to have been granted on a fair valuation and without auction as laid down in Rule 12, Appendix E, of the Revenue Rules, in the case of unassessed lands, (which are not fit for coffee cultivation) if applied for, for building sites, they are, it is said, usually granted on a price fixed at the rate of one rupee per 100 square yards or thereabouts. The raiyats, it appears, build houses on their own holdings free of any cost and only when they apply for Government land for building purposes a nominal sum according to the position of the land is charged for or levied from each applicant. It is a fact that in malnad thatched houses are very soon decayed and the raiyats could re-thatch them. As a rule they do not do so, but play a dodge by making hittals adjoining their houses and plant coffee therein. When the trees begin to bear, the owners change the house for another, reserving the coffee hittals of the abandoned houses, and thus in course of time each man appears to make for himself 3 or 4 small coffee hittals. This practice is doubtless objectionable and must be checked. It must, I think, be left to the discretion of the District Officer to grant land, free or not, for building purposes on the merits of each case.

Copies of the marginally noted papers on the subject of allotting building sites in malnad are forwarded to the Deputy Commissioners of Hassan and Shimoga for opinion, especially with reference to the practice said to prevail of obtaining lands on the pretext of requiring house sites and then gradually converting them into small patches of coffee gardens, and to the proposal to assess them at one rupee per acre when the extent exceeds one acre. Messrs. V. P. Madhava Rao and P. N. Purnaiya to whom copies of the said papers will be forwarded will also favor the Government with their views on the subject.

ALSO THE FOLLOWING CORRESPONDENCE :—

Letter No. 1096—100, *dated* 11*th September* 1895, *from Mr. V. P. Madhava Rao.*

With reference to Circular Memo No. 1899-902—R. 716, dated 13th August 1895, I have the honor to state that during the time I was in charge of the Shimoga district, no cases of the kind referred to in the correspondence under consideration had arisen and I am therefore not in a position to say how applications for building sites made with the ultimate object of converting the sites into patches of coffee gardens should be dealt with.

Letter No. 340, *dated 9th October* 1895, *from Mr. P. N. Purnaiya.*

With reference to your Circular Memo No. 1899-902—R. 716, dated 13th August 1895, forwarding copies of correspondence on the subject of allotting building sites in malnad, I have the honor to state that there can be no question in my opinion as to the advisability of giving out these lands free, *i. e.*, without an upset price or auction when it is wanted for building a house and cattle-shed provided the land is grass land and is not provided with shade fit for coffee. I would make nothing free however small the patch may be, and would impose the minimum kandayam of one rupee for any extent up to one acre. Each such plot should be a distinct survey number. If no assessment is imposed and if a house and hittal of a minimum area be let free, this cannot be shown in any account and yet the raiyat having once occupied it will lay claim to it afterwards even if he abandons it and settles elsewhere. This leads to confusion and disputes. I have been in many instances limiting such holdings to two acres and I am of opinion that this area only should be given *free* for a house and hittal without an upset price or auction, of course without any restriction from growing coffee.

2. Above two acres and up to five, I would impose the usual upset price of five rupees an acre. In both these cases I would not sell by competition unless the selfsame piece happens to be applied for at one and the same time.

3. What Mr. Meiklejohn has noticed is quite true. Pieces of land otherwise of no value whatever, have been converted into small attractive gardens yielding valuable crop, enough in many instances to support small families. There is no other disadvantage. It is not the house building which is the pretext for obtaining without sale valuable coffee land. But it is the raiyats settling on such a place, which converts a bare bleak grass land, but favorably situated protected from the monsoons, into a valuable coffee garden, well shaded and well manured. The malnad raiyat will not leave his ancient house so long as he prospers there for sake of such a land. But when he has to leave the house and settle in a new place for superstition, for necessity, or for other cause, a poor raiyat he may be, or even a well-to-do raiyat with paddy land of his in the valley below, he cannot live without his plantain, lime and orange and jack and coffee shrubs underneath. He plants these by habit and for necessity and in a few years the nakedness of the ground is covered by rich shade.

4. The Deputy Commissioners may be authorized to dispose of such applications without reference to the Survey Superintendent, fixing an assessment of one rupee an acre. The accounts and records should, however, be corrected both in the taluk and district and also in the office of the Survey Superintendent.

Letter No. 652—424, *dated* 12*th December* 1895, *from the Deputy Commissioner of Shimoga.*

With reference to your Official Circular Memo No. 1899-902—R. 716, dated 13th August 1895, *re* allotment of house sites, I have the honor to state that some coffee is grown in backyards of houses in the Nagar and Tirthahalli taluks. I saw the coffee gardens in the Nagar kasba. They were all less than an acre in extent and not very flourishing. In the Tirthahalli taluk, very little is said to be grown in the Mandagadde side. The facts referred to in Mr. Meiklejohn's letter may, I think, have general application to the Hassan and Kadur districts, but not to this.

2. Though not for the purposes of growing coffee or other garden produce, the practice is general in the malnad of this district for raiyats to erect houses on kharab or gomal lands adjoining gardens and wet lands without permission being previously obtained for so doing. In some cases, the raiyats enclose large extents of an acre and more for grazing their cattle and storing manure, &c. But the lands are from their very nature unfit for coffee or any other valuable produce. The practice had, I believe, its origin in the official sanction given to it as explained in Mr. K. Ramachandra Rao's * letter, copy enclosed. Since the survey it has been checked and of late numerous applications are being received and submitted to Governmet for sanction. In order however to avoid the trouble and delay involved in such references, I have suggested in my letter No. 456—280, dated 31st October last, that power might be given to Deputy Commissioners to sanction the alienation of small extents from gomal and kharab lands for purposes of house buildings.

* No. 53, dated 16th November 1895.

3. As regards the proposal under reference, I think it will tend to the convenience of the public and speedy disposal of office work, if Deputy Commissioners are authorized to allot house sites and to assess patches of cultivation of coffee, &c., round them at the rate of one rupee per acre without reference to the Survey Department or Government. In this, care should, however, be taken that lands near villages suitable for building houses are not appropriated for coffee or garden to the exclusion of future *bonâ fide* applicants for house sites or so as to obstruct the extension of the streets in the village or opening out villages for improving their sanitation.

Enclosure No. 53, *dated* 16*th November* 1895.

In returning herewith the original correspondence received with your docket No. 705 of the 16th September last relative to the allotment of building sites in malnad, I have the honor to inform you that as will be seen from the Government letter No. 6544—236 of 8th November 1875 to the Commissioner, Ashtagram division, malnad raiyats enjoyed from time immemorial the privilege of utilizing Government kharab lands for building purposes without permission of Government authorities and plant the enclosures of the houses with coffee and other fruit trees, without rendering themselves liable to any assessment excepting mohatarfa tax in the event of the house builder being a non-agriculturist. In the above order the Government directed that till the completion of the survey operations, no restrictions whatever should be placed on the privilege. Although survey settlement has been introduced long ago, a large percentage of the rural classes are still under the belief that this privilege is not yet withdrawn from them. This I noticed from the multiplicity of cases which came before me during the jamabandi of the malnad taluk of Tirthahalli for the last official year, the taluk authorities having reported such appropriation of lands as unauthorized occupation opposed to the existing Land Revenue Laws. I therefore unhesitatingly agree with the Kadur Deputy Commissioner and the Survey Superintendent as to the soundness of the proposal of the District Officer granting such lands with an assessment of one rupee per acre of enclosure planted with coffee. I would recommend that whenever an applicant wishes to build a house and cultivate the compound with coffee, the whole area applied for should be granted without sale, subject only to the payment of annual assessment at Re. 1 per acre. Land required for building purposes only, should be sold to the applicant either by sale, or by fixing a reasonable price. It would be necessary to confine this concession to the raiyats of the same or neighbouring village, and not to extend the same to other speculators.

2. As regards the question mooted in the correspondence on the subject of exempting a planted enclosure when it is below a certain limit, I beg to observe that I recollect that the matter was once considered by the late Chief Commissioner Sir Mark Cubbon in 1857 and some decision arrived at. A reference to his letter No 24 of the 25th May 1857, of which I have not copy in extenso, will show how the point was then dealt with. In the Madras Presidency one gunta of a land is generally allowed free of tax as the backyard of a house. Having regard to the sparseness of our malnad population and to the large area of kharab lands in almost all villages of the malnad taluks, I think that 10 *guntas* of planted enclosure may be allowed free of assessment.

Letter No. 458, *dated* 28*th November* 1896, *from the Deputy Commissioner of Hassan.*

With reference to Government Proceedings No. 1899-1902—R. 716, dated 13th August 1895, calling for opinion on the subject of assessing the lands taken up for house sites, but subsequently converted into coffee gardens, I have the honor to state that I agree with Mr. Meiklejohn and Colonel Campbell that Government unassessed land, not fit for coffee, may be given on application

without auction or assessment up to a limit of 10 guntas for house and bittalu, any larger area being assessed at one rupee per acre.

2. To require an upset price to be paid for the same, is by no means a hardship. The rate of Rs. 10 per acre may be made applicable in such cases also. The lowest price paid for house sites in maidan villages and even in thickly populated malnad villages is one rupee per 100 square yards and this amounts to Rs. 48 per acre.

No. 10528-36—R. F. 92-96, DATED, BANGALORE, 29TH MAY 1897.

ORDER THEREON.—From the above it is clear that a diversity of practice prevails in the malnad districts as regards the grant of sites for building purposes. The subject has been under consideration for some time and it is necessary that these sites should be disposed of on certain defined principles. The Government therefore are pleased to lay down the following rules for adoption in the Hassan and Kadur districts and also in the Shimoga district as far as they are applicable to the circumstances of that district:—

(1) Ten guntas of kharab (unassessed and not gomal) land should be the maximum extent to be given ordinarily for the building of each house or hut.

(2) The sites thus limited in extent will bear no assessment and may be given generally free by the Deputy Commissioners, except when there are more applications than one for the same site, in which case the site will be sold by public auction.

(3) The Deputy Commissioner, however, has discretion to treat exceptional cases in a special manner and even when there are more applications than one for the same site, to give the site as above limited in extent for an upset price whenever there is undue hardship to a poor deserving rayat.

(4) When the extent exceeds ten guntas and evidently affords scope for coffee and other garden crops being grown thereon, an assessment of one rupee per acre may be levied and also an upset price of rupees five per acre or any fraction thereof when under one acre and above ten guntas. Whenever there are more applications than one, the land should be sold by public auction. The maximum extent should in no case exceed two acres, except with the sanction of Government.

(5) Lands thus granted should be marked in the survey plans and treated as village sites or assessed lands according as they are in Gáv Tán or otherwise.

(6) The trees on such lands may be sold either by auction or for an upset price; and if bought by any person other than the one who obtained the land, a condition must be imposed and enforced requiring such purchaser to remove the trees within a reasonable time which should be fixed in each case according to the circumstances thereof.

Proceedings of the Government of Mysore,

READ :—

Letter No. 5355—387, dated 15th April 1897, from the Excise Commissioner in Mysore, reporting upon the progress made and the results attained with respect to the sowing of date seeds in the several districts of the province.

No. 10588—Ex. 376, DATED, BANGALORE, 31ST MAY 1897.

ORDER THEREON.—Recorded with the observation that the results of the experiment tried have not so far been very encouraging.

2. In future, every care should be taken that good seed is collected and sown in proper season in suitable localities. The work is expected to be done by the local Excise officials themselves, with the help of the village patels, and should on no account be thrown on the Revenue officials. With the large Excise establishment now maintained, and provided the higher subordinates exert themselves properly, Government see no reason why a fair amount of success cannot be achieved without any extra cost.

NOTIFICATION.

No. 9873—*Ex.* 352, *dated* 8*th May* 1897.

Under the provisions of Section 55 of the Excise Act XXII of 1881, the Government of Mysore are pleased to declare that the Toddy Rules contained in Government Notification No. 11813—R. F. 233-92, dated the 14th January 1893, shall, as far as may be, apply to the toddy leases under the preliminary Tree-tax system sanctioned for 1897-98 in Government Proceedings No. 613-22—Ex., dated 2nd April 1897.

2. The amended Toddy License "A" hereto annexed shall be substituted for the License "A" appended to the aforesaid Toddy Rules.

By Order,

C. SREENIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

A

License granted to Toddy Farmer in the District of

I,.....Deputy Commissioner of the.....District, under the provisions of the Excise Act, hereby appoint you,.....son of..... residing at.....to be the renter of the exclusive privilege of vending Toddy in the toddy farm of..... in the Taluk of.....in the District of.....from the 1st day of..... .....189 to the.....day of.....189.. subject to the following conditions and stipulations to be observed by you, the said.....

CONDITIONS.

1. The exclusive privilege conferred by the license extends to the vend of date, palmyra, cocoanut and bagani toddy for consumption within the farm.

2. The Deputy Commissioner shall be at liberty to issue license for the sale of foreign liquors, for the manufacture and sale of country beer, and for the manufacture and sale of arrack and other country spirits.

3. (1) (*a*) For the trees required to be tapped by the licensee for each quarter in the Government groves assigned to his farm, or in private groves obtained for the manufacture of Toddy under private arrangements between himself and the owners of such groves, he shall make the application in the prescribed form in due time, and obtain tapping licenses.

(*b*) In the case of date trees applied for by him to be tapped, the licensee shall get the requisite spaces on the stems of date trees prepared, so that they may be easily marked by Excise officers.

(*c*) No trees shall be tapped, nor shall Toddy be drawn from any tree, nor shall any pot be attached to any tree until the tree has been marked by the proper officer. But the preparation of the spathes or incisions for the drawing of Toddy from the fit trees applied for, may be made as soon as the application in the prescribed form has been delivered to the Excise Supervisor concerned.

(2) The licensee shall pay Rs..... including local cess as total rent for 1897-98, but made up as per particulars below :—

(*a*) For each toddy-yielding tree tapped by the licensee, tree-tax shall be paid at the undermentioned rates :—

Description of trees.	Rates of tree-tax including local cess per tree per annum.		
	Rs.	a.	p.
Date	1	1	0
Cocoanut	2	2	0
Palmyra	1	9	6
Bagani or Sago	1	9	6

(*b*) The difference, if any, between the amount of tree-tax so realized and the total rent including local cess referred to in clause (2) above, shall be paid as farm rent.

(3) The tree-tax and farm rent thus payable for 1897-98 shall be adjusted as follows—

(*a*) Deduct the tree-tax payable for the trees tapped in each of the four quarters of 1897-98 from ¼th of the total rent including local cess, referred to in clause (2) above. The difference, if any, will represent the farm rent payable for each of such quarters.

(*b*) The tree-tax plus the farm rent, if any, calculated as above, shall be payable in the following instalments :—

Several Seasons.	Proportion of Tree-tax and Farm-rent instalments by which to be paid monthly to Government.			Instalments by which to be paid.	
1st quarter, between 1st July and 30th September ..	$\frac{1}{3}$ of Tree-tax plus $\frac{1}{3}$ of Farm-rent ..			On or before 20th July.	
				Do	20th Aug.
				Do	20th Sept.
2nd quarter, between 1st October and 31st December	Do	do	..	Do	20th Oct.
				Do	20th Nov.
				Do	20th Dec.
3rd quarter, between 1st January and 31st March	Do	do	..	Do	20th Jan.
				Do	20th Feb
				Do	20th Mar.
4th quarter, between 1st April and 30th June	Do	do	..	Do	20th April.
				Do	20th May.
				Do	20th June.

If default is made, the Amildar may, with the sanction of the Deputy Commissioner, declare by record in writing that the license is forfeited, and proceed to resell the farm as soon after the last day of the month as may be possible. Provided, however, that instead of reselling the farm as above, the Deputy Commissioner may, in his discretion, direct the Amildar to break up the defaulting farm into the existing number of shops within it and give to each separate shop-keeper a license for the rent he agrees to pay plus tree-tax at the prescribed rate, provided the total of such rents and tree-tax is not less than what the defaulting farmer had agreed to pay.

(4) If the amount of tree-tax paid by the licensee were to equal the total rent including local cess mentioned in clause (2) above, nothing would remain to be paid by him as farm rent. But if the tree-tax payable on the trees tapped by him were to exceed such amount, he shall be bound to pay such excess.

(5) For the convenience of the licensee, application for tree tapping licenses for 1897-98 shall be received, trees shall be marked and tapping licenses shall be issued, by the Supervisors concerned, during the month immediately preceding the 1st July 1897, so that the drawing of Toddy for 1897-98 may take effect from the 1st July 1897

(6) The deposit made by the licensee shall be taken in payment of the instalment due in the last month or months of the period of the farm. Provided, however, that when the farm is resold or broken up under the provisions of clause (3) above, the deposit shall, at the discretion of the Deputy Commissioner, be either forfeited or be appropriated towards the arrears due by the defaulter as well as towards the deficits, if any, arising from the resale of the farm. The balance of such arrears and deficits, if any, shall be recoverable from the licensee or his surety or sureties or from both under the rules in force for the recovery of arrears of land revenue. No remission or abatement of the rent or compensation shall on any account whatever be claimable by the licensee. Interest at 6 per cent per annum shall be recoverable on all arrears from the date of default, and on deficits from the date of resale.

(7) If the deposit is in Government Promissory Notes which the licensee wishes to retain, they will be returned to him on payment of the whole of the rental due by him ; otherwise they will be sold, and the sale proceeds taken towards the payment of the instalments due in the last months of the period of the lease, any balance still due being recovered as if it were an arrear of land revenue. In the case of the resale of the exclusive privilege, the deposit will be applied to cover any arrears which may be due and the loss, if any, sustained by Government by resale ; and if it shall be more than sufficient to do so, the balance will be forfeited. If, however, the deposit should fall short of the arrears due and of the loss by the resale, such arrears and losses, together with interest, shall be recovered by the attachment and sale of the property of the defaulter and of his sureties, if any, under the rules in force for the recovery of the arrears of land revenue.

(8) The resale referred to will, however, be subject to formal confirmation by the Deputy Commissioner who shall be at liberty to accept or reject any bid at discretion. Such formal confirmation will be tantamount to an acceptance of the bid. The accepted bid will represent the amount which is to be paid for the remaining period of the lease for the exclusive privilege.

(9) If the Deputy Commissioner does not confirm the resale, he may make such other arrangements as may appear advisable for the remainder of the period of the lease ; in which case he shall serve a notice on the licensee informing him of the nature of the arrangements made.

4. (1) (*a*) The licensee of a "direct supply farm" shall obtain the supply of Toddy only from the grove or groves specially assigned to him, on the aforesaid terms.

(*b*) If the number of trees in the above farm be more than the requirements of the shops attached thereto, they shall be available for supply to any other Government farm. The grove may, at the discretion of Government, be subdivided so as to allow the toddy to be drawn on the aforesaid terms, by the "Direct supply and aiding (Ayan Kumki) farm" or "Shop farm," as the case may be.

(*c*) Should the "Direct supply farm" be inadequate to supply the wants of the licensee, he may make his own arrangements with private land-holders for drawing Toddy from trees on their lands, and to use such Toddy for sale in the shops attached to his farm, subject to the payment of tree-tax as above specified.

(*d*) No Toddy shall be sold or used for the manufacture of jaggery except in such localities and on such conditions as may be prescribed.

(2) The licensee of a "Direct supply and aiding farm" shall sell the Toddy to another Government farmer at the usual rate prevailing in the locality, *viz.*, at ghadas or seers per rupee; or if so desired, Government shall divide the grove or groves so as to admit of the required supply of the shops attached to the said farm, or other class of farms, being obtained from the trees assigned therefor, on the aforesaid terms.

(3) The licensee of the "Shop farm" shall obtain the supply of Toddy from a "Direct supply and aiding farm," by paying the prescribed tree-tax for the trees tapped by him. If a grove be available, he may get his supply from the same, and he may also obtain his supply from land-holders by making his own private arrangements with them, subject to the payment of tree-tax at the prescribed rates for the trees tapped by him.

(4) The Deputy Commissioners of the Bangalore, Kolar, Tumkur, Mysore and Chitaldrug Districts may, at their discretion, permit the import and export of Toddy from and to the districts of Bellary, Anantapur, Cuddapah, North Arcot, Salem and Coimbatore, in the Presidency of Madras, subject to para 4 of Rule 170, Chapter XI of the Standing Orders of the Board of Revenue, an extract of which is given in the margin, and subject also to such other rules, orders, restrictions or payments as may be framed, passed, imposed, or determined upon from time to time. No refusal of permission in this behalf shall be made the ground of any claim for remission or abatement.

Chapter XI, Rule 170, para 4, "The Collectors of the districts of Bellary, Anantapur, Cuddapah, North Arcot, Salem and Coimbatore may permit the import and export of Toddy from and to Mysore. The issue of permits should, however, be restricted to the renters of rent areas (farms) from which the liquor is to be directly exported.

(5) The licensee of farms in alienated villages will be allowed to draw Toddy only from trees in the groves assigned to him or from the trees in private lands, subject to the payment of tree-tax at the prescribed rates.

5. The licensee shall not interfere with the licensees for cutting date leaves for mat-making, rope-making, basket-making, or for agricultural or other purposes, when they make use of the trees assigned for such purposes, and not reserved for tapping.

6. Toddy shops in alienated villages shall be separately leased, and the amounts connected therewith shall be shown in the accounts under a distinct head.

7. The licensee shall keep true and correct accounts showing—

(1) the names and situation of date topes from which Toddy is drawn,
(2) the number of Trees tapped,
(3) the quantity of Toddy drawn daily,
(4) the quantity of Toddy sold daily, and
(5) the names of the shops to which Toddy is supplied.

These accounts shall be kept in such forms as may be prescribed by the Excise Commissioner and shall be open to inspection by the Amildar, or any Excise Officer appointed by the Deputy Commissioner for this purpose, and a copy thereof shall be furnished by the licensee to the Deputy Commissioner on requisition, in such form as may be prescribed by the Excise Commissioner.

8. Toddy shall be sold only in shops duly sanctioned and licensed by the Deputy Commissioner. Tree-foot sales or sales in the open, or the disposal of toddy in any other manner unauthorized by the rules shall be strictly prohibited.

9. The Deputy Commissioner may, whenever he thinks fit, direct shops to be closed or permit transfers of shops from one place to another, or direct new shops to be opened with the previous sanction of the Excise Commissioner. A sufficient supply of Toddy shall be maintained in all sanctioned shops.

10. Each shop-keeper shall place the license granted to him in a conspicuous place in the shop.

11. A sign board shall be affixed in a conspicuous part of the front of each shop containing, in the vernacular, the name of the shop-keeper and the price of the Toddy sold by him.

12. The shop-keepers shall prevent all drunkenness or disorder or gaming within their shops.

13. No shop shall be opened before sunrise.

14. Shops shall be closed by 9 o'clock P. M., unless the Deputy Commissioner, for special reasons, shall authorize the keeping open of particular shops to a later hour.

15. The shop-keepers shall not harbour robbers or thieves or riotous persons, but, on the contrary, shall give intimation to the nearest Magistrate or Police Officer as to any such persons who may resort to their shops.

16. The shop-keeper shall not receive any grain, jewels, goods, wearing apparel, or other arti in barter or in pawn for Toddy, but on the offer of any such, shall give information to the near Magistrate or Police Officer.

17. No shop keepers shall sell to any person more than three measuring seers of Toddy to consumed in the shop. Unless he holds a pass, the shop-keeper shall not allow any one to take o of his shop more than two imperial quarts, with the exception of bakers who are permitted to pu chase and remove the quantity of Toddy specified in the pass held by them.

18. Shop-keepers shall be bound to furnish such returns and information as may, from time time, be required by the Deputy Commissioner.

19. The distillation of spirit from Toddy is absolutely prohibited

20. No ingredients noxious to health shall be put into the Toddy either to increase its into cating power or for any other reason.

21. No diluted or adulterated Toddy or Toddy drawn more than two days previously, shall sold or offered for sale or kept in the shop.

22. No Toddy shall be sold at rates below the minimum retail rates fixed by Government per particulars below:—

	Price for seer or imperial quart.											
	Date Toddy.			Cocoanut Toddy.			Palmyra Toddy.			Bagani Toddy.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	
In District Head-Quarters ..												
In Taluk Kasbas of the District ..												
In Villages												

23. Shop-keepers shall use such measures as may, from time to time, be prescribed by Govern ment.

24. The licensee shall have such measures tested and stamped at his own expense.

25. No Toddy shall be sold or given to any European Non-Commissioned Officer or privat soldier, or to any European or Eurasian camp follower, or to any member of the families of any the aforesaid persons, without the permission, in writing, of the Commanding Officer, or of some per son duly authorized by him in this behalf; nor to any sailor, nor to any sepoy, member of the Police Force, Excise Officer, or a servant of a Railway Company whilst on duty; nor to any European vagrant under escort of the Police; nor to any child under 12 years of age, for consumption on the premises; nor shall any Toddy be sold *on credit*.

26 The Deputy Commissioner may direct that all shops for the sale of Toddy on, or adjacent to the line of march shall be closed whilst a regiment or detachment of European or Native soldiers is passing or encamped in the vicinity. Such soldiers may be supplied with Toddy by such persons as the Government may select for the purpose, notwithstanding the licensee's exclusive privilege.

27. No remission or abatement of the rent shall, on any account whatever, be claimable by the licensee. The Government reserves the power to terminate the lease on public grounds, awarding a reasonable compensation to the licensee. The licensee will have no claim to compensation or remis sion on account of any arrangements which may be made by Government in regard to country beer or other description of liquor or spirit than Toddy.

28. Except with the permission of the Excise Commissioner, the licensee shall not sell or sub-rent or transfer his farm or any portion of his farm. The resignation of the farm in whole or in part shall be summarily rejected by the Deputy Commissioner.

29. Every person placed by the licensee in charge of shops shall, before entering upon his em ployment, execute the engagements prescribed by law. All engagements entered into by persons to be employed by the licensee on or after 189 , shall be deposited with the Deputy Commissioner within one month from that date, or of the date of executing the engagement.

30. If it comes to the licensee's knowledge that any person employed by him in the manufacture, carriage or sale of Toddy, commits any breach of the Excise Laws or of the engagements entered into by him, it shall be the licensee's duty to report the matter to the Deputy Commissioner, and to com ply with the directions of the Deputy Commissioner respecting the further employment of such person.

31. During the term of the license, the licensee shall not have any interest in the exclusive privilege of selling arrack in any part of the farm to which the license relates, or permit any person having any interest in the exclusive privilege of selling arrack in any part of the farm, to hold any share or interest in the licensee's exclusive privilege of selling Toddy.

32. Interest shall be payable upon all moneys due by the licensee at the rate of six per centum per annum.

33. The licensee shall provide himself with printed forms of permits for transport and possession of Toddy. Such permits shall be in the form prescribed by the Excise Commissioner, and shall be purchased from local Excise Officers.

34. The licensee shall pay the usual mohatarfa tax on carts used for conveying Toddy, but such carts shall not be impressed for Government work.

35. The licensee shall be responsible that his servants or agents are prevented from extracting Toddy from young immature date trees the trunks of which are less than one yard in height from the ground to the springing of the branches, nor shall any leaves be cut and used by them except such as may have to be removed for the purpose of drawing Toddy, nor shall any trees be tapped in so careless a manner as to lead to their destruction ; and any breach of these rules shall render the licensee liable to the payment of a penalty of Rs. 50 for each offence.

36. The licensee shall employ only professional toddy-drawers for tapping the trees.

37. In case of any breach of the aforesaid conditions either by the licensee, or with his connivance or privity by any person in his employment, or in the event of the licensee neglecting to open his shops or to carry on the business of his farm with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding the sum of Rs. 50 for every such breach or neglect, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited, and to cancel the license, and resell the exclusive privilege at the risk of the licensee or to place the farm under the management of Government. When a farm is cancelled, the rent for the whole period of the farm shall become due at once ; and all loss caused to Government by the cancelment or resale of the farm shall be made good by the licensee, his heirs and representatives and his sureties. All the amounts of such penalties and loss shall be recovered in the same manner as if they were the arrears of land revenue.

38. The imposition of a fine, or the forfeiture of deposit, or the cancellation of the license under the last preceding condition, shall not be held to prevent the prosecution of any person for any offence which may be committed against the provisions of the Excise Act or any other law for the time being in force and relating to the Excise Revenue, or any other enactment under which the offence may be punishable.

39. If the licensee shall be convicted on prosecution before a Magistrate of any offence against the Excise Act, or other law for the time being in force and relating to the Excise Revenue, or any other enactment, it shall be lawful for the Deputy Commissioner to declare his license forfeited.

40. All sums payable by the licensee may be deducted from the amount of his deposit, or recovered by attachment and sale of the property of the licensee or his surety, under any law for the time being in force for the recovery of arrears of land revenue.

41. Any sums deducted by the Deputy Commissioner under the powers herein contained from the deposit made by the licensee for the due performance of the lease, shall be replaced by him or his surety within 15 days from the receipt of a notice from the Deputy Commissioner informing him of such deductions having been made.

42. The licensee shall be bound by any additional general rules which may, from time to time, be prescribed under the Excise Laws now in force, or which may hereafter be enacted, and shall, on requisition by the Deputy Commissioner, or other officer duly authorized by him, deliver up his license for amendment or for the issue of a fresh license accordingly.

Proceedings of the Government of Mysore,

READ :—

(1) Letter No. 214, dated the 12th March 1897, from the Superintendent of the Government Botanical Gardens, Bangalore, submitting for sanction the budget estimates of the Botanical Gardens, Parks, &c, in Bangalore and of the Gordon Park at Mysore for the year 1897-98.

(2) Letter No. 211, dated 10th March 1897, from the same Officer requesting sanction for the inclusion in the budget estimates of the Botanical Gardens of a sum of Rs. 400 to meet the travelling allowance of his department.

No. 9641-42—Ft. F. 42-95, DATED, BANGALORE, 1ST MAY 1897.

ORDER THEREON.—The probable receipts of the Botanical Gardens at Bangalore and the Gordon Park at Mysore for 1897-98, are estimated at Rs. 2,600 and Rs. 300, respectively, being the same as for the year 1896-97; and for the Cubbon Park, at Rs. 400 or Rs. 200 less. Pending explanation for this decrease, the estimates given will stand.

2. The total expenditure of the Cubbon Park for 1897-98 is estimated at Rs. 1,740, being the same as for the current year, and that of the grounds attached to the Dewan's Official Residence at Bangalore at Rs. 648 against Rs. 588 in 1896-97, the excess being due to increases sanctioned to certain servants in Government Proceedings No. 3865-6—Ft. 224 and 5334-35—Ft. F. 130-95, dated respectively the 15th October and 16th December 1896. The total expenditure of the Gordon Park at Mysore is estimated at Rs. 3,188, being Rs. 60 in excess of the provision for 1896-97, which is due to increases of pay from Rs. 4 to Rs. 5 to certain servants, sanctioned in Proceedings No. 6742-95—R. F. 42-95, dated 27th January 1897.

3. In the budget estimates of the Botanical Gardens, a sum of Rs. 1,798 has been added to the provision of Rs. 23,724, sanctioned for the current year to meet increases in the pay and number of gardeners as sanctioned in Proceedings No. 7154-55—Ft. F. 13-95, dated 6th February 1897, and for the purchase of rare animals as directed in Proceedings No. 3949—Ft. F. 130-95, dated 26th October 1 96. A sum of Rs. 48 has been added to the provision under the head "Apprentice gardeners" to meet the increased rate of stipend payable to them. This fact should have been explained by the Superintendent.

The Superintendent in his letter No. 211, dated 10th March 1897, requests that a provision of Rs. 400 may be made in the budget to meet the travelling allowances of his department for which no provision now exists. This amount will accordingly be provided in the budget estimates of the Botanical Gardens, which will thus amount to Rs. 25,922 as against Rs. 23,724 in 1896-97.

4. With these observations the budget estimates for 1897-98 are passed, and forwarded to the Comptroller for inclusion in the Provincial budget.

Letter No. 4428—322, dated the 5th May 1897, from the Conservator of Forests in Mysore.

As called for in para 2 of Government Proceedings No. 9185—Ft. F. 31-95, dated the 22n ultimo, I have the honor to submit, for the information of Government, statements showing th quantities of sandalwood disposed of at the auction sales and on tenders subsequently inv ted, with the rates obtained as compared with those secured at the previous auction sales.

2. It will be observed that the results of this year's sales both in regard to quantity an prices realized are comparatively poor for the reasons briefly stated in my previous communica tions on the subject. Consequently these results could hardly be taken as the basis for futu years' sales.

3. The total realizations from 1,236¾ tons of all classes of sandalwood amounted Rs. 4,53,911 against the current year's budget estimate of Rs. 8,17,300 for 2,142 tons. Ther is a stock of about 641 tons of prepared wood still left unsold at the several kothis which repre sents a value of Rs. 2,25,273 calculated at the mean average rate of Rs. 353 per ton secure this year.

4. The classification and sales conducted this year were in accordance with those describe in para 3 of my letter No. 4041-374, dated 29th May 1896, sanctioned in para one of Governmen Proceedings No. 63-71—Ft. F. 3-96, dated the 3rd July 1896. Only a very small quantity, 18 tons of the newly classified wood at the Seringapatam and Hunsur Kothis was sold whic might be considered not to augur well for its general adoption in the remaining kothis. But was explained by the merchants at Sagar, that owing to the general depression of both European and Indian markets, they could not offer higher rates for the specially classified wood and tha if such classification were adopted in all the kothis there would be greater facilities and les complications. I am inclined to concur in this view, especially as the demand for class bille is mainly from Bombay for home consumption or export to China and that (*i. e.*, the Bombay market was paralysed by the plague, and recommended the adoption of the revised Bomba classification slightly modified (as per statement attached) in the remaining six kothis situate in the districts of Shimoga, Kadur, Hassan and Bangalore. I solicit the favor of early orders i the matter.

N. B.—Mr. Narayan Rao in Shimoga Kothis uses a sieve of about ½ inch diameter, all that goes through is taken to be ***Basola bukni*** and what remain goes into *Ain chilta*. Merchants object to this and say ***Basola bukni*** is quite distinct from *chilta* which should be composed *entirely of heart wood*. They say what does not go through the sieve is proper ***Basola bukni*** and what goes through is really dust and often much mixed with earth and is objected to by home-purchasers and suggets a special class or rate for it; but I do not like multiplying them further.

No. 10579—Ft. F. 31-95, dated, Bangalore, 28th May 1897.

Order thereon.—Recorded.

2. The total quantity sold was 1,286¾ tons of all classes of sandalwood for an aggregate price of Rs. 4,53,811 against Rs. 2,072⅕ tons for Rs. 7,97,089 in 1895-96. The results of the sales, which were greatly affected by the plague, scarcity and general depression of trade in Bombay, were comparatively poor. The stock of prepared wood left unsold is reported to be 641 tons which represents a value of more than Rs. 2,26,000.

3. For reasons explained in para 4 of the Conservator's letter, the revised Bombay classification, as shown in the statement attached thereto, is approved and may be adopted in the remaining kothis of the province.

READ THE FOLLOWING PAPERS :—

Letter from Colonel J. Campbell Walker, Conservator of Forests in Mysore, No. 3792—279, dated 5th April 1897.

Referring to Government Order No. 4278—Ft. F. 60-95, dated 11th November 1896, and my instructions to Mr. G. E. Ricketts (copy enclosed), I have the honor to submit his report (in original to be kindly returned) on the catchment area or drainage system of the Arkavati river so far as it affects the Water-supply of the Hessarghatta Reservoir or "Chamarajendra water works" received by me last January and since under reference to the Deputy Commissioner, Bangalore, with my No. 2554—179 of 18th January, copies of which and the Deputy Commissioner's reply with its enclosures (in original to be kindly returned) are also submitted.

2. It will be observed that Mr. Ricketts' report gives a good general idea of the course of the Arkavati and its feeders above Hessarghatta though the Deputy Commissioner points out that he omits four of the latter which are probably of minor importance. The bulk of the land s naturally under private occupancy and it would be very expensive and of doubtful expediency o acquire it.

Fortunately the land on the head waters is at the disposal of Government, the main sources eing apparently situated within the existing Nundydroog State Forest and as Government are ware from correspondence on the question of the regulation of water-supply generally, I am of pinion that it is on the retention of forest growth around, and in the vicinity of head waters that se must mainly rely for its permanency.

3. Without entering into details which will be found in Mr. Ricketts' very creditable report I consider his Scheme A feasible and recommend it for adoption. The Deputy Commissioner, Bangalore, agrees with me that it is "Both feasible and advantageous," but proceeds to open up a very wide question with regard to the raiyats' enjoyment of "facilities" or privileges regarding which we have already had some correspondence.

Mr. Narasimmaiengar suggests that the present opportunity be taken "to define the indulgences which the raiyats may be granted in tracts newly created into State forests" adding that if the raiyats are permitted to take free as heretofore firewood and grass from such reserved plantations * * *, the objections on their part will be greatly minimised" the correctness of which statement no one is likely to gainsay.

The District Forest Officer supports Mr. Ricketts' proposals and advocates their extension subject to free grazing for cattle of adjoining villages being allowed to which the Assistant Commissioner who is also in favor of this scheme would add "free use of fuel," whilst the Amildar of Dodballapur considers the Scheme A may be carried out "provided the raiyats are allowed all the privileges which they have now been enjoying in the District Forest of Hulkudi," and refers to "the great hardship" to which the raiyats are subjected by the reservation (in the Revenue or Public Works Departments) of all Government waste lands in the drainage area of the Hessarghatta tank.

4. Needless to say such conditions are quite incompatible with the object in view and if Government consider them essential, the scheme must be abandoned.

Whatever indulgences may be allowed in the future, it is absolutely necessary at the outset, if we are to improve the growth in the natural forest or jungle and plant the areas along the banks of the stream indicated by Mr. Ricketts, which the Deputy Commissioner admits are "more or less bare", to secure and enforce rigid protection against all felling free or otherwise and trespass by men and cattle. To put the matter in a practical shape, were a private individual anxious to improve his jungle and make a plantation of mango or other trees would he invite or allow people to cut, graze cattle and trespass on his land?

Government is exactly in the same position; and if it deems it necessary or expedient in the interests of the community at large to reserve and improve any land at its disposal, it must adopt the same steps as a private individual and suspend or curtail the exercise of privileges, or indulgences which are inimical to the objects it has in view. Later on, when the natural growth is improved and planted trees established, concessions in the shape of firewood, cutting grass and even limited grazing may be made whether free or otherwise as Government may direct.

5. I do not propose to enter into the general questions of the advantages and aims of forest conservancy in this letter, but feel that I must do so separately and ask Government to promulgate them if it concurs in my views as I find that many Revenue officers including men of marked ability and integrity of purpose like Mr. V.N. Narasimmiyengar entertain the idea that it is inimical the welfare of the people, which if justifiable should entail the abolition of reservation and conservancy altogether or restricting it to very special cases. I hope to be able to show that it is quite the contrary not only from a forest but an agricultural point of view.

6. It will be observed that the extension of the boundaries of the State Forests contemplated under Mr. Ricketts' scheme will be chiefly in the Kolar district, I shall of course consult the Deputy Commissioner of that district regarding it on receipt of orders on the proposal generally and do not anticipate any insurmountable difficulty. I am not sure that artificial "planting up" of the areas adjoining Dibbagiri and Halkadibetta is feasible owing to the poor and rocky

nature of the soil; but their reservation and protection, after a settlement of rights, appear advisable and likely to prove beneficial.

7. If Government are pleased to intimate approval of the scheme generally with any modifications which may suggest themselves, I propose to employ Mr. Ricketts during the month soon when work on the ghat forests is impossible in working out details under my immediate orders and in consultation with the Deputy Commissioners and District Forest Officers of the two districts and solicit the sanction of Government to the adoption of this course.

Letter from the Conservator of Forests in Mysore, to Mr. G. E. Ricketts, Assistant Conservator of Forests, No. 1805—361, dated 23rd November 1896.

The Dewan is anxious to know how far the catchment area of the Arkavati river and its tributaries and any other streams draining into the Hessarghatta Reservoir, is at the disposal of Government and capable of protection in view to clothing it with a forest growth in the hope of regulating, if not increasing the water-supply, and rendering it perennial.

2. The District Forest Officer, Bangalore, has too much in hand to attend to this investigation, and I have therefore the honor to request that you will undertake it in communication with him, the Deputy Commissioner and Chief Engineer who has already indicated the catchment area roughly on the tono sheets in my office, and will doubtless afford any further information required.

3. You will have to start from the reservoir and thoroughly investigate the drainage system which I believe extends to the southern slopes of the Nandi hill, and a low range adjoining it to the westward the reservation of which has recently formed subject of correspondence between the Deputy Commissioner of Bangalore and myself which will be placed at your disposal.

You will please note and indicate on maps the unoccupied areas which it would appear advisable to reserve and protect, and any in occupation which it is advisable to acquire for the purpose, ascertain how far the banks of the Arkavati and other streams have been denuded and the prospects of re-clothing them, say to a breadth of 50 yards on either side at any reasonable expense, and devote special attention to the head waters or sources of supply, reporting to what extent they are situated in areas under our control and covered with a growth of forest or scrub or the contrary.

4. Such an investigation of the subject to which I have already directed your attention demi-officially should not occupy more than a month and will, I hope, place us in possession of all material facts which can then be laid before Government with suggestions for consideration and orders. An essential will be a good map or tracing, on not too large a scale, on which the lands at the disposal of Government and those in private occupation and the extent to which they are clothed, bare, or under cultivation should be indicated.

5. I think there are some tents of the late plantation branch available for your use: if not a couple can doubtless be obtained from the Forest Department on loan; and you are authorized to entertain two peons and a lascar on usual rates of pay whilst employed on this special duty any clerical assistance being provided from my office.

Should a draughtsman be required in connection with the map, Colonel Bowen will be asked to place one, temporarily, at your disposal.

Letter from Mr. G. E. Ricketts, Assistant Conservator of Forests on Special Duty, to the Conservator of Forests in Mysore No. —D, dated 4th January 1897.

With reference to your letter No. 1805—361, dated 23rd November 1896, requesting me to thoroughly investigate the drainage system of Hessarghatta Reservoir and to report thereon, I have the honor to submit the following report:—

2. The catchment area of the Hessarghatta tank or "Chamarajendra water works" may be shown on the map by a line roughly drawn from the western slopes of Dibbagiri to Kanavepur village. The line thereafter goes round Nundydroog and encloses the western and a portion of the northern slopes of Channarayanbetta up to Venkatesapura. From there it goes more or less straight up to Sennenhalli, where it takes a curve to Naganhalli. Passing from thence, it is crossed by two roads going from Dodballapur to Goribidnur and Koratagere, respectively. From this point, it runs through Nellikunte, Tippur, and over Hulkadibetta and Jotipura. It then curves round Kanglapura and comes straight down to Bhimravatanhalli passing near the villages of Dod and Chik Makanal. From there, it goes through Tubkunte, cutting the Doddspet-Dodballapur road near Dyavasandra. From this latter place it goes through Balgere and then through Bailmaikanhalli and on to Hessarghatta tank passing through Arjunabettahalli, and Sayeppanhalli villages. Starting from the other end of the bund, at Aivarkandpur, it passes through Mutkur, Chokenhalli Agrahar, Tinnalu, Venkatapura and Hosur, joining the starting point after cutting the Dodballapur-Devanhalli road, between Venkatapura and Hosur. Nearly the whole area is thus situated in the Dodballapur taluk except a small portion which lies in the Chikballapur

and Nelamangala taluks (*vide* map No. 1). This map also shows the general drainage of the area above described.

3. The principal feeders of the Hessarghatta tank are two independent streams as shown in map No. 2. One of which is the Arkavati with its two important tributaries, the other being the water coming down from Hulkadibetta, through a series of tanks, and entering the reservoir after filling the Byatarayanapura tank. This is in fact a tributary of the Arkavati joining it in the Hessarghatta tank.

4. The Arkavati rises in the Nandi Range of hills. The name Nandi hills is a general term applied to five separate hills situated in the same chain in the Chikballapur and Devanhalli taluks. They are known as Brahmagiri or Vargkonda, Channakesava or Channarayanbetta, Kalavardhuga or Skandagiri, Nundydroog and Dibbagiri, giving rise to rivers flowing in different directions. The Palar is said to rise in Nundydroog. The Northern and Southern Penners in the Channarayanbetta and the Arkavati in Brahmagiri, a branch of which also rises in Channarayanbetta. The Arkavati is a small stream compared with others and does not independently join the sea as in the case of the other three rivers mentioned above, but forms a tributary of the Cauvery, after a short course of 120 miles. Further it does not flow in a continuous stream except beyond the Hessarghatta tank: but runs into and issues from a series of tanks right down the valley, before reaching the Hessarghatta Reservoir. Thus, it does not flow along its bed until after filling each successive tank along the chain. Beyond Hessarghatta tank, the Arkavati runs as a river with no hindrance and is considerably wider receiving, as it does, many tributaries such as, the Kumudvati from the west, the Vrushabhavati from Bangalore, which itself receives the Suvarnamukhi from Anekal taluk.

5. Issuing from a cave called the Kanagadagavi in the Brahmagiri hill, the Arkavati flows for about 1½ miles through the Nandi State Forest and then through the District Forest for about two furlongs. It is then crossed by the Sompur-Kolar road, and enters a small tank called Kanagadakunte and is also joined by numerous hill torrents. The other branch of this stream rises in a place about ⅛th of the way up the Channarayanhill. After flowing for about 2½ miles through the State Forest and half a mile through the District Forest of the Kolar District, it enters Gaudankere tank. Water is now flowing in this stream, but at a distance of about one furlong from the Gaudankere tank, abruptly ceases to flow above ground. Seeing that there is plenty of water in this tank, it is to be inferred that the water finds its way here.

6. As there is only a trace of water at the source of the Arkavati in the Brahmagiri hill and a fairly large flow of water in the stream from Channayanbetta, the latter may be looked upon as a very important tributary of the Arkavati. After leaving Gaudankere tank, this tributary enters Kuskatte tank which was found to be dry and then joins the Arkavati before it flows into Melekote tank. Up to this tank, the river beds are capable of recognition and lined with numerous honge (*Pongamia glabra*) trees among which there are several stumps of felled trees of the same kind. From Melekote tank downwards, the river bed is scarcely discernible. It goes through paddy lands and enters Lidike tank which is almost dry. Reappearing at the waste weir of that tank, it is again lost in the Kachighal tank which is far from full. After this tank, the river bed is dammed by the Rajgatta tank, then by the Sivapur tank which is almost dry. Here it receives a tributary from Dibbagiri (see para 7). The river before entering Nagarkere (near Doddballapur town) passes between cocoanut gardens, heavily hedged close up to the banks. The land being level, the river widens and contains water to a depth of about 12 feet. A temple is also situated here dedicated to Arkeswara, and some natives allege that this is the source of the Arkavati taking the name from the god of this temple. The stream, after leaving Nagarkere runs down to Chik Tumkur, and from thence before it enters Dod Tumkur tank it receives the overflow water of a series of tanks ending with Aralamallige tank which commences from the eastern slopes of Hulkadibetta. Between this and Kakol tank, the land is very low and in consequence there is water varying from a depth of 12 to 15 feet. In this and similar other places where water is low lying, dams are thrown across and the water is either bailed up or led into adjacent wet and garden cultivation, which is being carried out right up to the banks leaving a very small bed for the river. After forming a triangular piece of swampy waste land, the river enters the Kakol tank and from this to the Hessarghatta tank.

7. The above is the main stream. Turning to the tributaries, a small stream runs down from Dibbagiri, taking its source from a pool two-thirds of the way up the hill where the water collects during the rains and flows into the Nandigunda tank. After that, it goes down to Kodagehalli tank which is also fed by the surplus water of Kanvepur and Acharhalli tanks which are at the foot of this hill. From Kodagehalli tank, the river-bed runs through paddy lands containing here and there deep pools, and is lost in the Lingenhalli tank locally called Ganganakere. The Konagatta tank, otherwise called Ammanakere, is the next tank in the chain which in turn receives the water of this tributary stream. There is water flowing between Lingenhalli and Konagatta tanks; and from Konagatta tank the surplus water enters Sivapur tank.

8. The second tributary has no source. It is only the drainage water of the eastern slopes of Hulkadibetta, running through the two tanks of Modeswara, both of which feed the Gundasandra tank, the surplus of which is received by the Tippur big tank which also gets water direct from the slopes of the hill as well as the surplus water of Bommenhalli tank. This Tippur tank is locally called Timmammanakere, and is the first big tank in the series, the above three being only small kattes. From Tippur tank the water flows into Hanabe tank, the water of which is being run out owing to repairs having been put in hand. Thus there is a large quantity of water flowing in the water course between Hanabe and Kestur tanks, the latter being almost full. From Kestur tank it goes to feed the Aralamallige tank. This is one of the largest tanks in the catchment area and receives water from other feeders also. The surplus water of this Aralamallige tank flows through wet cultivation right down to beyond Chik Tumkur tank and joins the water course going from the latter tank to that of Dod Tumkur.

9. From the south-western slopes of the Hulkadibetta, another tributary of the Arkavati may be traced, starting from three small rivulets at the foot of the hill, two of which flow into Lingapura tank, and one to Buchanhalli tank. The surplus water of Buchanhalli tank finds its way to that of Kalenahalli inam village, after filling which, it feeds the Gollahalli tank. The overflow water of Gollahalli and Lingapura tanks runs into Sonnenahalli tank, passing through Aktammanahalli tank on the way. From Sonnenahalli tank it flows to Chikhejjaji tank after which, Istur tank gets the overflow water. From Istur tank, the overflow water runs into Madare tank, which is the largest of all included in the four chains of tanks above mentioned. This tank is only half-full. From Madare tank, the water passes into Byata tank, from which it flows into Hessarghatta Reservoir, and the whole of the valley down which this water flows is under wet cultivation.

10. As to the state of forest growth, both at the source and along the banks of the main stream and tributaries, I have to state that at the head-waters in the Nandi State Forest, there is a fair forest growth. The same may be said to be the case in the District Forest below, and as already stated the river-bed is thinly lined with honge trees down to Melekote tank. Beyond that tank on the banks of the main stream and tributaries, the forest growth is nil, there being only about one hundred trees standing at long intervals throughout the whole water-course.

11. Under these circumstances I beg to state that so far as my judgment goes, I see no prospect of rendering the Arkavati river perennial, even if the proposed 50 yards' belt on either side of the stream be taken up and planted, since the little water which now finds its way here from the paddy lands above will be stopped.

12. During the last monsoon, the rainfall in this part of the country appears to have been scanty, and I was told that this has been the case on the Nandi hills for the last three or four years. Consequently, very little water is to be found at the head of the stream and the smaller tanks thereabouts have little or no water while those lower down the chain have a fair supply pointing to the fact that these tanks are fed by other feeders from the plains.

13. With regard to the enquiry as to how far the catchment area of the Arkavati and its tributaries is at the disposal of Government, it may be stated, that the jungles at the head waters, *viz*, on the Nandi hills and Hulkadibetta are already included in the State and District Forests. Dibbagiribetta, I am given to understand, is at present included in the District Forest, the rest being under private occupancy, as shown in map No. 2

14. The question of clothing the banks of the Arkavati river with a forest growth with the hope of regulating, if not increasing the water-supply and rendering it perennial, is therefore open to much doubt. Thus I have to propose two schemes which are described below under heads A and B, of which, in my opinion, A may be given the preference.

SCHEME A.

15. (1) The present demarcation line of Nandi State Forest may be brought down so as to include the District Forest belt below, running from Gaudankere tank, right up to Brahmagiri hill, from which, a belt of 50 yards on either side of the stream down to Melekote tank may be reserved, and planted (*vide* map No. 3). By this reservation of the head-waters, much may be done to make the stream perennial.

(2) The Dibbagiribetta and waste lands available below it, down to Kodigehalli tank (*vide* map No. 4), may likewise be reserved and planted up.

(3) I would also purpose reserving and planting a strip of about 160 acres on the south-western side of the Hulkadibetta, so as to include the three rivulets (*vide* map No. 5) which ultimately form the head-waters of a chain of tanks whose surplus water drains into the Arkavati in the Hessarghatta reservoir.

16. The total area to be thus operated upon amounts to 730 acres, with a cost of Rs. 22,500 as per Statement A. The work might be carried out in a couple of years.

17. In addition to the above measures at the head-waters, I would purpose that raiyats and others holding lands on the banks of the Arkavati and its tributaries below the head-waters be ordered to plant and maintain trees in their holdings on the same conditions as those on which avenue trees are planted (which by experience has been found to be very successful in Mysore) and any small pieces of waste land being planted up by Government. This proposition is made, in as much as it entails less hardship on the raiyats and would, at the same time, furnish data as to the possibility of rendering the Arkavati river perennial by hereafter clothing the banks with forest trees, when further operations might easily be carried out.

SCHEME B.

18. This scheme is to acquire and plant a belt of land 50 yards on either side of the main stream, and tributaries. The length to be thus planted out would be about 50 miles in extent, and would cost some Rs. 1,27,000 as per statement B. Map No. 2 will show the nature of the land on the banks of the streams from which it may be seen that the land at the disposal of Government is very small, the greater portion being under private occupancy which would have to be purchased on payment of heavy compensation. Finally it would be observed that this Scheme B would not only entail clothing the banks of the Arkavati river with forest growth, but also acquiring lands at a heavy cost for starting new plantations.

19. The maps and statements to which reference has been made above are hereto appended.

No. 10286-289—Ft. F. 44-96, dated, Bangalore, 24th May 1897.

Order.—After careful consideration of the proposals submitted with the letter read above, the Government are of opinion that the western and south-western slopes of Channarayabetta, Nandigiri, Brahmagiri and Dibbagiri, which drain into the Arkavati, should be carefully reserved and planted with select forest and other indigenous trees. For the purpose of such reservation, the present State Forest boundary line should, as recommended by Mr. Ricketts in Scheme **A**, be brought down so as to include the District Forest on the slopes of the first three hills named above, and it should further be extended south-west and round south and east so as to take in the whole of Dibbagiri and the jungle and waste lands to the west and south-west of it which drain into the Arkavati. It is not clear from Mr. Ricketts' plan No. 4 that he proposes to take the whole drainage, but it is very desirable to bring the State Forest boundary line down south so as to take in the whole of Dibbigiri and the entire drainage.

2. It is reported that the additional tract which would thus be brought under reservation contains at present no trees of any value to the neighbouring villagers; and it follows from this that the exclusion of raiyats therefrom cannot be productive of any real hardship to them. On the other hand, the recognition of any privileges therein for raiyats would, at the outset at any rate, be highly inimical to the proposed afforestation of the tract. Under such circumstances the Government deem it undesirable to concede to raiyats any privileges for firewood, grass, &c., within the proposed area of new reservation. This area is comparatively small and there is no ground for any reasonable apprehension of inconvenience to neighbouring villages.

3. Mr. Ricketts proposes (*vide* his plan No. 3) to reserve and plant a belt of 50 yards on either bank of the stream from Brahmagiri up to Melekote tank. This proposal is approved. From para 6 of his report the stream from Channarayabetta seems to be particularly important and its banks also should be similarly dealt with, as far as the Melekote tank.

4. The proposed reservation around the streams from Dibbagiri (*vide* plan No. 4) is also approved.

5. The extension of the Hulkadi State Forest so as to take in the head-waters of the streams therefrom (as per plan No. 5) is sanctioned. The remarks in para 2 above apply also to this extension, and in carrying it out care should be taken to include under reservation the whole of the available waste drainage area.

6. It is desirable to plant a belt of trees around the waterspread of the tanks at which the reservations above directed end, namely Melekote, Kodigehalli, Lingapur and Buchanhalli tanks. Such a belt need not be limited to any specified breadth, but should take in the available waste area.

7. The Conservator of Forests will be requested to carry out, in communication with the Deputy Commissioners concerned, the reservations above directed, at as early a date as possible, and to set on foot the planting and other operations required to afforest the entire tract, making due provision therefor in the Forest Budget of the next and subsequent years.

8. In the selection of trees for planting, care should be taken to exclude such as are popularly regarded as producing fever or other disease, (such as the honge against which there is a strong popular prejudice). Trees such as the bevu reputed to possess febrifugal and germicidal properties should be very largerly planted. Exotics which rapidly drain sub-soil moisture should be avoided. These observations regarding the selection of trees are applicable to the belt already planted around the water-spread of the Hessarghatta tank itself, and any departure from them as regards this belt may, it is requested, be remedied by the transplanting of the objectionable plants to localities below the tank.

9. The belt of trees around the Hessarghatta tank should be extended into the various valleys and lands taken up for the water-supply scheme and chiefly around the waterspread of the Byata and Kakol tanks.

10. It is reported that the Arkavati between Sivapur and Nagarkere tanks and again between Dodda Tumkur and Kakol tanks runs in a defined bed with a stream of water 12 to 15 feet deep. It would certainly be desirable to extend the proposed planting operations up to the Sivapur tank, but financial considerations induce the Government to stop for the present at the Melekote and Kodagehalli tanks as directed above.

11. It is, however, of the utmost importance, that the bed of the river below the last named tanks and especially that portion of it which is between Sivapur and Kakol tanks, should be carefully protected from encroachment. It is reported that in many places, the cultivation on either bank leaves the river but a very narrow bed. The Deputy Commissioner of the Bangalore district is requested to cause a careful inspection to be made of the entire course of the river and its tributaries above the Kokal tank up to Melekote and Kodagehalli tanks by the Amildar, who, with the aid of the village maps, should satisfy himself that no encroachment exists or where encroachment is discovered, should take immediate steps to set back occupation to the proper limit. The Deputy Commissioner should further lay down definite instructions for reserving to the Government any lands on either bank which may now be unoccupied. The Deputy Commissioner is also requested to cause a tracing from the village maps to be carefully prepared and submitted to the Government, showing the entire course of the river and its tributaries above Kakol and the continuous boundary line within which the occupation on either bank is restricted.

12. The Government reserves for future consideration, the question of any further conservation necessary of the river banks above the Kakol tank.

13. The Department, Public Works, will be requested not to permit any increase of the capacity of the tanks in the catchment area of the Hessarghatta tank except to the extent necessary to make up for loss of capacity by silting, and without the special express sanction of Government in each case.

PUBLIC WORKS.

Proceedings of the Government of Mysore,

No. 330—1932, DATED BANGALORE, 10TH MAY 1897.

ORDER.—The Chamarajendra Water-Supply Works for the City of Bangalore, including the High Ground, having already been completed, as regards the public service by street fountains and stand-posts, the question of the extent to which it is safe or feasible to meet the large demand for private House-connections which has arisen, requires now to be very carefully considered in all its bearings.

2. First as regards the capability of the system to meet the demand, it must be remembered that the supply has been fixed at 12½ gallons per head delivered in 15 hours, and the grant of House-connections must, therefore, be limited so as not to cause too great a strain on the system and thereby outrun the calculated necessary delivery of the pipes for the public fountains along the various sections.

3. The high-level supply is specially intended for the Palace, the Imperial Service Lines and the High Ground bangalos, which are built in large compounds and number 50 in all. House-connections can safely be given to this small number of bangalos without any risk of inconvenience to the people who resort to public fountains in this locality for their supply of water. Indeed, the establishment of private connections for houses in the High Ground is actually necessary, as in anticipation thereof, the number of public fountains provided is smaller than it otherwise would have been.

4. The conditions of low-level supply intended for the petta are far different. On it is dependent a population of nearly 80,000 people. Any great increase of the points of delivery, over and above the public street taps, such as the establishment of numerous House-connections, each with several delivery cocks, would involve, is calculated to derange the delivery during the hours of greatest draft at the street fountains, on which the mass of the people must depend for their supply. House-connections on this system must, therefore, until further experience, be limited to the smallest number possible. Under such circumstances, the Government decide to limit House-connections from the low-level system, until further orders, to houses with a monthly rental of not less than Rs. 25. The number of such houses is 63.

5. The same limit of Rs. 25 monthly rental, may also be adopted for House-connections from the high-level system, for the sake of uniformity.

6. It is most important to devise efficient safeguards against the concession of a House-connection being abused by a wasteful or unauthorized use of the water. After due consideration of alternative methods of control, the Government resolve that for every House-connection from the Chamarajendra Water-Works, a water-meter of proper size and pattern should be provided and maintained in due working order for the accurate gauging of the water consumed.

7. The connection pipes leading the water from the public mains to a house, the pipes, taps and works within the house, and the water-meters, shall all be of such character, dimensions and material, as the Water-Supply Department shall fix and approve, and they shall be provided, and from time to time repaired or renewed, at the cost of the person desiring the House-connection. The Water-Supply Department shall determine the size of every connection with due regard to the pressure and capacity of the public mains in the particular locality.

8. In return for the water-rate to be assessed upon all occupied buildings and premises every householder will be entitled to a supply of water for the domestic use of himself and his household; the use of the water, whether drawn from public fountains or private House-connections for other than *bonâ fide* domestic purposes, should be strictly prohibited, and the Water-Supply Department should regard it as an important part of its duty to prevent any misuse of the water for other than domestic purposes. This Department should make it known, as widely as possible, that a supply for domestic purposes does not include a supply of water for horses or for washing carriages, where such horses or carriages are kept for sale or hire, nor does it include a supply for any trade, manufacture or business, or for fountains or for any ornamental or mechanical purpose, or for watering gardens or roads.

9. It is essential to prescribe the quantity of water which a householder should be entitled to draw by means of his House-connection. The Government decide to make for this purpose the very liberal allowance specified in the subjoined table based upon annual rental values of houses.

For a house the annual rental value of which—				The authorized allowance for daily consumption to be—
		is Rs. 100	... ...	60 gallons.
Exceeds Rs.	100	but does not exceed Rs. 200	... ...	100 do

Do	2,200	do 2,400	... ...	470 do
Exceeds Rs.	2,400		... ...	500 do

10. Any quantity used over and above the allowance specified in the last preceding para should be separately paid for, according to an increased scale of price varying from Re. 1 to Rs. 4 for every 1,500 gallons or fraction of 1,500 gallons of the excess, in any quarter ending with 31st March, 30th June, 30th September and 31st December. The scale of price sanctioned for excess over the authorized allowance is as follows:—

(*a*) For the first 4,500 gallons or less of the excess, *i. e.*, when the excess does not exceed 4,500 gallons.			At 1 Re.	For every 1,500 gallons or fraction of 1,500 gallons.
(*b*) For the portion, if any, of the excess which exceeds 4,500 but does not exceed 9,000 gallons.			At 1½ Rs.	do
(*c*) Ditto	ditto	which exceeds 9,000 but does not exceed 15,000 gallons.	At 2 Rs.	do
(*d*) Ditto	ditto	which exceeds 15,000 but does not exceed 20,000 gallons.	At 3 Rs.	do
(*e*) Ditto	ditto	which exceeds 20,000 gallons.	At 4 Rs.	do

11. An authorized allowance for daily consumption and the provision for payments for any excess above that allowance, are subject to the condition that the water for domestic purposes only should be taken.

12. With the foregoing observations the Government sanction the establishment of private House-connections from the Chamarajendra Water-Works, upon the applications in writing of householders subject to the rules appended hereto.

By Order,

Rules for the Regulation of House-connections from the Chamarajendra Water-Works

1. The supply of water from the Chamarajendra Water-Works being intended exclusively for *bonâ-fide* domestic purposes, the water drawn therefrom, whether from public fountains and taps or from private house-connections, shall not be used for any other purpose whatsoever. A supply of water for domestic purposes shall not include a supply of water for horses or for washing carriages, where such horses or carriages are kept for sale or hire, or a supply for any trade, manufacture or business, or for fountains or for any ornamental or mechanical purpose, or for watering gardens or roads. Water which has been used for washing, bathing or other domestic purposes, may be collected and used for gardening or other non-domestic purposes, but on no account should pure water be drawn from the taps for these purposes. Provided that, with the special permission of the Water-Supply Department, water may be taken from the fountains and hydrants for watering public roads on special occasions.

2. Until further orders, private connections to houses from the Chamarajendra Water-Works will be limited to houses whose annual rental value is not less than Rs. 300 (three hundred), and to localities where the capacity and pressure of the public water-mains permit of such connections being made without detriment to the street service.

3. For every house-connection there shall be provided and maintained in due working order, a water-meter of approved size and description for the accurate gauging of the water consumed.

4. All pipes, taps, water-meters and works required for a house-connection, shall be of such dimensions, character and material, as the Water-Supply Department may approve, and they shall always be under the control of the Water-Supply Department and shall in no way be interfered with by any others, and they shall be provided, renewed and repaired by the Water-Supply Department, at the expense of the house-holder applying for, or desiring, the connection, who shall pay in advance the estimated cost. The whole should be fully paid for before the house-connection is permitted to be used.

5. The Water-Supply Department shall determine the size of each house-connection with due regard to the capacity and pressure of the public water-mains of the locality.

6. The house-connection in any case is liable to be stopped or the supply reduced by the Water-Supply Department, without any notice or assigning any reason. But when the stoppage is over an extensive tract, or is due to exigencies which are previously foreseen, such previous notice as is possible under the circumstances will be given by the Water-Supply Department. If the Water-Supply Department has reason to believe that wasteful or unauthorized use is made of water drawn from any house-connection, it shall be its duty to stop such connection forthwith under this rule.

7. The quantity of water which a house-holder will be allowed to draw from his house-connection (free of any charge other than the general water-rate to be assessed upon the annual rental value of his house and premises) shall be regulated in accordance with the scale hereunder :—

For a house the annual rental value of which—				The authorized allowance for daily consumption to be—
		is Rs. 100	... ...	60 gallons.
Exceeds Rs. 100	but does not exceed	Rs. 200	... ...	100 do

Do 2,200	do	2,400	... ...	470 do
Exceeds Rs. 2,400			... ...	500 do

8. Any house-holder who is found to have used in any quarter, ending with the 31st March, 30th June, 30th September, or 31st December, of any year, a quantity of water in excess of the quantity allowed under the last preceding rule, shall pay for such excess a price calculated according to the scale hereunder :—

(*a*)	For the first 4,500 gallons or less of the excess, *i. e.*, when the excess does not exceed 4,500 gallons.		At 1 Re.	For every 1,500 gallons or fraction of 1,500 gallons.
(*b*)	For the portion, if any, of the excess which exceeds 4,500 but does not exceed 9,000 gallons.		At 1½ Rs	do
(*c*)	Ditto	ditto which exceeds 9,000 but does not exceed 15,000 gallons.	At 2 Rs.	do
(*d*)	Ditto	ditto which exceeds 15,000 but does not exceed 20,000 gallons.	At 3 Rs.	do
(*e*)	Ditto	ditto which exceeds 20,000 gallons...	At 4 Rs.	do

9. Rules 7 and 8 shall not be regarded as permitting the use of water drawn from a house-connection for other than domestic purposes.

10. All payments due under these rules shall be recovered by the President of the City Municipality, upon requisition of the Water-Supply Department, under Rules for Recovery of Municipal Revenue.

11. The Government reserves to itself the power, whenever it deems fit, to alter or modify the foregoing Rules, or to abolish altogether the system of house-connections to be established thereunder.

12. Every house-connection shall be regarded as established subject to the conditions and regulations contained in the Rules as above or as they may be altered or modified for the time being by order of the Government.

13. The foregoing Rules shall apply, *mutatis mutandis*, to all public institutions,—such as schools, temples, mosques, churches, public offices,—the supply allowed in each case being determined by the Water-Supply Department, and any excess used over and above such supply being measured by water-meters and paid for by the institutions concerned, at the rates prescribed in Rule 8 above.

14. Rules 1, 4, 5, 6, 10, 11, 12 and 13 above shall apply, *mutatis mutandis*, to public street fountains which have been, or may be, allowed to be erected at the expense of private individuals for dedication to public use, and such fountains shall further be subject to the following conditions, namely :—

i—That their number shall be strictly restricted by the *bonâ fide* public requirements of particular localities.

ii—That they shall in no case be within the distance prescribed for the time being by the Water-Supply Department for particular localities, from any other public fountain.

iii That their free and unobstructed use at all hours by the public, or section of the public for whose use they are intended, be duly safe-guarded. And

iv—That their dedication to the use of the public, or of a section of the public, as the case may be, be posted up in legible characters in English and Canarese

15. The expression "Water-Supply Department" as used in these Rules shall, until further orders, mean the Chief Engineer and Secretary to the Government of Mysore in the Public Works Department, and any officer deriving his authority from him.

16. The foregoing Rules shall be published in the official Gazette and in such other ways as the Water-Supply Department may consider necessary. Every person or institution applying for a connection from the public main shall be deemed to have subscribed to the regulations and conditions therein contained.

The following Note by the Chief Engineer of Mysore, dated 29th March 1897, on the Final Issue of the Public Works budget for the year 1896-97.

I beg to submit for approval and early sanction of Government, the Final Budget Estimates of the Public Works Department for the year 1896-97, providing for a total expenditure of Rs. 33,91,273, or Rs. 36,402 more than the original grant, as shown below. Of this increase, Rs. 15,402 represent additional grants sanctioned by the Government in the General Department from District Funds, since issue of Preliminary Budget; and the balance Rs. 21,000 is the extra grant required for Palace works under progress.

		Final Issue.	Preliminary Issue.
		Rs.	Rs.
Provincial Fund	Ordinary grant ...	15,00,000	15,00,000
	Special grant ...	10,00,000	10,00,000

Provincial Fund.

2. *Ordinary Grant.*—The requirements under this head, as reported by Executive Engineers, amount to about 16½ lakhs, but they have been cut down to 15 lakhs, that being the normal grant fixed in the Dewan's Forecast Programme of 28th June 1894.

Original Works.

3. Under *Military*, the original grant of Rs. 40,000 has been reduced to Rs. 37,500 according to requirements. That under *Civil Buildings* has been increased from Rs. 1,45,000 to Rs. 1,88,000, to provide for eight incomplete works of the previous year, not provided for in the Preliminary Budget, and for some urgent new works since sanctioned by Government. Several works of the Preliminary Budget, projects for which are not yet ready, have been omitted, as they are not likely to be undertaken this official year. The reserve grant for minor works of this class has also been increased from Rs. 40,500 to Rs. 50,000, to cover urgent sanctions already accorded. Under *Communications*, the grant has been augmented by Rs. 9,500 or to Rs. 1,21,500, the increase being necessary to provide appropriations for some urgent new work since sanctioned. The increase of grant under *Miscellaneous Public Improvements* from Rs. 20,000 to Rs. 31,000, has been found unavoidable.

4. Under *Irrigation*, the grant of 5 lakhs originally allotted, has been reduced to 4 lakhs by omitting some of the works entered in the Preliminary Budget, for which projects are not yet ready. Provision has now been made for 34 incomplete major works omitted in the first Budget, and for some new works since sanctioned. The allotments for all the sanctioned works have been regulated according to requirements, as reported by Divisional Officers.

REPAIRS.

5. The grants under this head have been modified to meet actual requirements of the year, as noted below:—

	Modified Grant. Rs.	Original Grant. Rs.
Military	5,000	5,000
Civil Buildings	75,000	65,000
Communications	3,32,000	3,25,000
Miscellaneous Public Improvements	6,000	6,000
	4,18,000	4,01,000

The distribution by divisions will be found in abstract pages 4—5. No details can be furnished under "Military," "Civil Buildings" and "Miscellaneous Public Improvements," the grants for which are utilized on works as found necessary. Details under communications will be found in pages 54—55. The small increase under communications was chiefly due to the mileage grant for 21¼ miles of the ghat portion of the Bangalore-Mangalore road, *via* Hassan and Manjarabad ghat, having been increased from Rs. 200 to Rs. 500, to provide for the extensive special repairs necessary, consequent on the severe damage sustained by this portion of the ghat road during the last heavy rains.

6. *Special Grant.*—The special grant of 10 lakhs sanctioned for extraordinary works remains unaltered, although its distribution among service heads has been modified to suit requirements, as noted below:—

	Final Budget. Rs.	Preliminary Budget. Rs.
Re-productive works—		
Irrigation	2,99,000	4,99,000
Non-productive works—		
Military	80,000	50,000
Civil Buildings	16,000	40,000
Communications	16,000	65,000
Miscellaneous Public Improvements	3,86,000	1,75,000
	4,98,000	3,30,000
Establishment	1,97,000	1,77,000
Tools and Plant	6,000	5,000
Total ..	10,00,000	10,00,000

The original grant of one lakh provided for the new reservoir across the Garudachala stream near Mavatur, has been reduced by Rs. 40,000 at the request of the Executive Engineer, while the allotment of 2½ lakhs for the Chamaraj channel has been altered to 1¼ lakhs, owing to stoppage of work for some time on account of out-break of cholera. The allotment of Rs. 25,000 for a new reservoir above Marikanave gorge has been reduced to Rs. 2,000, which will suffice to meet preliminary expenses. The project is not yet ready. The allotments for the Imperial Service Lines at Bangalore, and for the Mysore and Bangalore Water-supply Works, have been largely augmented, at the request of the Officers concerned.

DISTRICT FUND BUDGET.

7. The grants sanctioned by Government in the General Department for works to be executed by Public Works Department, aggregate Rs. 4,55,273 against Rs. 4,39,871, provided in the Preliminary Budget. The increase is due to supplemental grants having been since sanctioned for the districts of Kolar,

Chitaldrug and Mysore. The distribution of this amount by divisions and by service heads will be found in abstract pages 8—9. The above Budget provides Rs. 3,88,586 for Works, Rs. 63,987 for Establishment, and Rs. 2,700 for Tools and Plant. The percentage of Establishment to Works, stands at 16·40 against 17·50 per cent, fixed in Government Proceedings (P. W.) No. 869-98—4824-53 of 12th September 1895. This will be pointed out to the Secretary, General Department, for rectification.

IRRIGATION CESS FUND.

8. The original grant of 4 lakhs sanctioned under this fund, remains unaltered. The important major works sanctioned will be found in pages 48—51 of the Budget.

PALACE FUND.

9. The original grant of Rs. 15,000 has been increased to Rs. 36,000 to provide for works detailed in pages 51—52 of the Budget. Sanction to this additional grant of Rs. 21,000 is solicited.

ESTABLISHMENT.

10. The total charges under this head, as per Part III of Budget, aggregate Rs. 6,34,982 or Rs. 50,422 more than the grant in Preliminary Budget. The increase is mainly due to provision having been made for the two Superintending Engineers of Circles and their establishment, sanctioned by Government with effect from 1st January 1897. A sum of Rs. 5,000 has been provided under "Accounts" for the Deputy Auditor General's establishment. Deducting the amount chargeable to Sanitary Works Budget on account of "Direction" and "Accounts," the net amount debitable to Public Works proper is Rs. 6,26,000, and its distribution to the several budgets stands as noted below:—

	Rs.	Percentage to Works.
Provincial Fund	4,92,013	24·60
District Funds	63,987	16·40
Irrigation Cess Fund	70,000	21·21

TOOLS AND PLANT.

11. The total amount provided under this head is Rs. 17,687 against Rs. 23,078, provided in Preliminary Budget. No details for this amount can be furnished as the purchase of tools, &c., depends entirely on the necessity for same. Details of expenditure incurred will, however, be given in the Examiner's Annual Financial Account.

No. 299-318—1819-1838, DATED, BANGALORE, 5TH MAY 1897.

ORDER THEREON.—The Final Issue of the Public Works Department budget for the year 1896-97, providing for an expenditure of Rs. 33,91,273 is sanctioned with the following observations:—

(i) The apportionment of establishment charges to the Sanitary Department should be revised in accordance with the Council Resolution of 29th March 1897, (embodied in Government Proceedings No. 258-73—1528-43 of 9th April 1897), and with the revised figures under the Sanitary Engineer's Circle in the present budget.

(ii) The debit of 10 per cent of the charges under "Direction and Accounts" to Sanitary Works budget, is too heavy a charge for sanitary works. 5 per cent which is a fair charge may be adopted for this and future years. The debit on this account for 1896-97, including Superintending Engineers and Deputy Accountant General, will thus be Rs. 6,149.

(iii) The Chief Engineer will apply for any additional allotment of funds required for expenditure on the partial re-construction of the Mysore Palace, during the remaining months of the current year, and make the necessary provision for this work in the budget of the next and following years.

By Order,

C. BOWEN, COLONEL.,
Secy. to the Govt. of Mysore,
P. W. Department.

To—The Superintending Engineers of Circles.
The Executive Engineer, French Rocks Division.
The Executive Engineer, Hessarghatta W. S. Division.
The Sanitary Engineer with the Government of Mysore.
The Examiner, P. W. Accounts of Mysore.
The Comptroller of Mysore.
The Secretary to Government, General and Revenue Departments.
All Deputy Commissioners of Districts.
The Military Secretary to the Government of Mysore.
The Inspector General of Police.
The Inspector General of Education.
The Senior Surgeon with the Government of Mysore.
The Registrar, Chief Court.
